# COMMERCIAL ITEM DESCRIPTION

## HOLDERS, BINDER LABEL

The General Services Administration has authorized the use of this commercial item description in lieu of Federal Specification GG-H-1314.

This commercial item description covers binder label holders in two sizes, with insertable labels, and plastic window covers.

Salient characteristics:

The body of the holder shall be of one continuous piece of strip steel or plastic with provisions for back assembly of the slip on clip, and retention of the insert label and plastic window.

The holder shall be of the appropriate size for use with the binder capacity size indicated and shall be held on the binder by a spring clip made from one continuous piece of spring steel.

When in place the design of the holder shall be such that it retains the label and window.

All holders shall be black.

Dimensions:

Size 1. For use with 1 inch binder capacity.
Size 2. For use with 2 inch binder capacity.

Certification. The contractor shall certify that the product offered meets the salient characteristics of this description and that the product conforms to the producer's own drawings, specifications, standards and quality assurance practices, and is the same product offered for sale in the commercial marketplace. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Recovered materials. The manufacturer shall utilize recovered materials to the maximum extent practicable.

Packaging, packing, and marking. The holders shall be packaged in accordance with normal commercial practice and packed in fiberboard boxes that will assure acceptance by common carrier and provide product protection against loss and damage during multiple shipments, handling, and storage. The shipping container shall be in compliance with National Motor Freight Classification and Uniform Freight Classification. Marking shall be as specified in the contract or order.
