COMMERCIAL ITEM DESCRIPTION

STENOTYPE MACHINE PAPER
(PAPER, SHORTHAND MACHINE)

The General Services Administration has authorized the use of this commercial item description in lieu of Federal Specification UU-P-322.

Salient characteristics:

One continuous strip in accordian folded form. Fold lines at right angles to edge of paper. When used in a stenotype machine, nonassisting refold to occur during use, and figures, when printed, to be legible and not smear. Individually banded bundles.

Length between folds - 8-1/2 ± 1/16 inch
Width of bundle - 2-3/8 ± 1/16 inch
Thickness of bundle - 1-7/8 ± 1/16 inch
Paper basis weight - 28 - 32 lbs (24 x 36-500)

Certification. The contractor shall certify that the product offered meets the salient characteristics of this description and that the product conforms to the producer's own drawings, specifications, standards, and quality assurance practice and is the same product offered for sale in the commercial marketplace. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Recovered materials. The manufacturer shall utilize recovered materials to the maximum extent practicable.

Packaging, packing, and marking. The bundle of paper shall be packaged in accordance with normal commercial practice and packed in fiberboard boxes that will assure acceptance by common carrier and provide product protection against loss and damage during multiple shipments, handling, and storage. The shipping container shall be in compliance with National Motor Freight Classification and Uniform Freight Classification. Shipping containers shall be marked as specified in the contract or order.
