**DATA ITEM DESCRIPTION**

**Title:** Minimum Sustaining Rate (MSR) and Economic Order Quantity (EOQ) Report

**Number:** DI-MGMT-82105
**AMSC Number:** N9778
**DTIC Applicable:** N/A
**Preparing Activity:** SH
**Applicable Farms:** N/A

**Approval Date:** 20170322
**Limitation:** N/A
**GIDEP Applicable:** N/A
**Project Number:** MGMT-2017-012

**Use/Relationship:** The MSR and EOQ Report provides the Government with vital information to be used for production and budget purposes to help manage the procurement. Additionally, the information contained within this report is required by 10 USC 2431 – Weapons development and procurement schedules.

This DID contains the format and content preparation instructions for the data product generated by the work task described in the contract SOW.

**Requirements:**

1. Reference documents. The applicable issue of the documents cited herein, including their approval dates and dates of any applicable amendments, notices, and revisions, shall be as specified in the contract.

2. Format: The report shall be in the contractor's format.

3. Content: The report shall contain a cover page identifying the following:

   a. Report Title
   b. Date and revisions number
   c. Contract number
   d. Contractor's name, address and CAGE Code
   e. Security Classification (if applicable)

3.1 Minimum Sustaining Rate. The report shall contain the lowest monthly production rate, for each budget year, on a 1 shift/day, 8 hours/day, 5 days/week (1-8-5) basis at which this business entity can keep production lines open while maintaining a base of responsive vendors and suppliers.

3.2. The Economic Order Quantity (EOQ) . The report shall contain the maximum rate for each budget year at which the weapon system can be produced with existing or planned plant capacity and tooling, on a 1-8-5 basis.

3.3 The report shall contain detailed rationale as to how the MSR and EOQ numbers were calculated.
