DATA ITEM DESCRIPTION
Title: ZINC ANODE LOCATION REPORT

Number: DI-MGMT-82108
AMSC Number: N9781
DTIC Applicable: No
Preparing Activity: SH
Applicable Forms: N/A

Approval Date: 20170327
Limitation: N/A
GIDEP Applicable: No
Project Number: MGMT-2017-016

Use/Relationship: The report will provide detailed current zinc anode locations of the underwater hull of vessel(s).

This DID contains the format and content preparation instructions for the data product generated by the specific and discrete task requirement as delineated in the contract.

Requirements:

1. Format. The report shall be in contractor's format.

2. Content. The Zinc Anode Location report shall contain a sketch of the underwater body and freeboard plating surfaces with the following information:

2.1 Specific locations of fixed hull structural members.
2.2 Specific locations of docking block locations.
2.3 Specific locations of hull reference points.
2.4 Specific measurements of zinc anodes to docking block locations.
2.5 Specific measurements of zinc anodes to hull reference points.
2.6 Specific measurements of zinc anodes to fixed hull structural members.
