DATA ITEM DESCRIPTION

Title: SITE SURVEY REPORT (SSR)

Number: DI-MISC-82104
Approved Date: 20170309
AMSC Number: F9773
Limitation: N/A
DTIC Applicable: No
GIDEP Applicable: No
Preparing Activity: 11 (AFLCMC/WINL)
Project Number: MISC-2017-003
Applicable Forms: N/A

Use/Relationship: The SSR documents the findings of the contractor's site survey. The SSR is used to identify any discrepancies between conditions described by the contract and actual on-site conditions.

a. This Data Item Description (DID) contains the format, content, and intended use information for the data deliverable resulting from the work task described in the solicitation.

b. The SSR is applicable to any acquisition of telecommunications equipment.

Requirements:

1. Reference documents. None.
2. Format. The SSR shall be in the contractor's format.
3. Content. The SSR shall contain the following:

3.1 Title page. The title page shall contain the following information:

a. Title.
b. Contract data requirements list (CDRL) data item number.
c. Base name.
d. Identification of project.
e. Contract number.
f. Date.

3.2 Table of Contents. The Table of Contents shall identify all paragraphs and the corresponding page number.

3.3 Introduction. The Introduction shall contain the following information:

a. Purpose.
b. Location.
c. Dates of survey.
d. Personnel contacted.

DISTRIBUTION STATEMENT A. Approved for public release. Distribution is unlimited.

Check the source to verify that this is the current version before use.

3.4 Results. The Results section shall be the main body of the report. It shall contain a complete listing of the contractor's findings. This section shall include a summary of all anticipated minor construction required, findings on cable routes, and distances, and findings on availability of existing manholes and ducts. This shall also include a list of circuits and demarcation points which have not been finalized or which require additional coordination with end users. This section shall fully documents and explain any other findings concerning on-site conditions in this section.

3.5 Conclusions and recommendations. This section shall summarize the results of the survey and present conclusions. The conclusion shall also identify any discrepancies between the contract and survey results. This section shall contain any recommendations that contractor has based on the survey. Any actions required from the Government by the contractor shall be noted here.
