DATA ITEM DESCRIPTION
Title: CONTRACTOR'S SAFETY PLAN

Number: DI-SAFT-82080
AMSC Number: N9731
DTIC Applicable: No
Preparing Activity: SH
Applicable Forms: N/A

Approval Date: 20161004
Limitation: N/A
GIDEP Applicable: No
Project Number: SAFT-2016-015

Use/Relationship: This DID will be used to establish, document, implement and maintain requirements that are appropriated for the work to be accomplished to the requirements of 29 CFR 1915, Occupational Safety and Health Standards for Shipyard Employment. (https://www.osha.gov).

This DID contains the format and content preparation instructions for the data product generated by the discrete task requirement as delineated in the contract.

Requirements:

Format. The report shall be in the contractor's format.

Content. The report shall include the following information:

Method(s) of communicating potential hazards, prior to the start of any task, to contractor's employees.

Hazards shall include emergency evacuation and muster policy, confined space, and energy control.

Method(s) of communicating potential hazards, prior to the start of any task, to subcontractors and other potentially affected personnel.

Hazards shall include emergency evacuation and muster policy, confined space, and energy control.

Process for performing a Job Safety Analysis/Job Hazard Analysis (JSA/JHA) for:
Processes and equipment new to the worksite.
Existing processes and equipment that have been involved in mishaps or near misses.
Process for identification, communication, abatement, and prevention of unsafe conditions and work practices.
Method(s) to account for employees and subcontractors working in isolated areas, e.g. confined spaces.
Method(s) to ensure work areas and walkways are adequately illuminated.

Method(s) to establish and maintain good housekeeping practices.
