INTERIM COMMERCIAL ITEM DESCRIPTION

TERBUTALINE SULFATE TABLETS, USP

The General Services Administration has authorized the use of this Interim Commercial Item Description which was developed by the Defense Personnel Support Center, Directorate of Medical Materiel, DPSC-RST, 2800 South 20th Street, Philadelphia, PA 19101, based upon currently available technical information. This document may be used in preference to MIL-T-37836, dated 10 February 1978.

Salient characteristics:

Shall be Terbutaline Sulfate Tablets, USP.

Shall be in accordance with the requirements of the USP.

All ingredients entering into the manufacture of the item shall be of pharmaceutical grade.

For Type I, tablets shall be considered by the FDA to be therapeutically equivalent to Terbutaline Sulfate Tablets, USP, as manufactured by Geigy Laboratories at the same dosage and administration schedule.

For Strength 1, shall contain 2.5 mg of Terbutaline Sulfate per tablet within the applicable assay limits for the tablets.

For Strength 2, shall contain 5.0 mg of Terbutaline Sulfate per tablet within the applicable assay limits for the tablets.

For Type II, tablets shall be considered by the FDA to be therapeutically equivalent to Terbutaline Sulfate Tablets, USP, as manufactured by Merrell Dow Pharmaceuticals, Inc. at the same dosage and administration schedule.

For Strength 1, shall contain 2.5 mg of Terbutaline Sulfate per tablet within the applicable assay limits for the tablets.

AMSC/NA FSC 6505

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

For Strength 2, shall contain 5.0 mg of Terbutaline Sulfate per tablet within the applicable assay limits for the tablets.

Each tablet shall be marked/embossed with a product identification code to identify the active ingredient(s), strength, and manufacturer. The materials used in marking/embossing the dosage forms shall be acceptable to the FDA. The actual code used for the product shall be left to the discretion of the supplier.

Workmanship. The tablets shall be free from defects which detract from their appearance or impair their serviceability.

Unit.

For Size 1 - Bottle (BT). One bottle containing 100 tablets, as specified, constitutes one unit.

For Size 2 - Bottle (BT). One bottle containing 1000 tablets, as specified, constitutes one unit.

For Size 3 - Package (PG). Shall be supplied 90 tablets in a commercially available bottle. Bottle shall have a minimum height of 51 mm base to shoulder and shall be supplied with a child resistant safety closure. One package containing 12 bottles (1080 tablets), as specified, constitutes one unit.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.
