COMMERCIAL ITEM DESCRIPTION

COOLANT AND CUTTING FLUID, LENS PREPARATION

The General Services Administration has authorized the use of this commercial item description as a replacement for Military Specification MIL-C-37171 which is cancelled.

This commercial item description covers one type of coolant and cutting fluid made of mineral oil base to be used in glass ophthalmic lens generator.

Salient characteristics:

General. The coolant shall be a commercial preparation that has been proven a successful product for the purpose intended. It shall be non-toxic and non-irritant by exercising ordinary precaution in contact with petroleum distillates. It shall be ready to use without dilution nor adding additive(s). The formulation shall keep the glass particles settled quickly at the same time providing lubrication and cooling properties.

Materials. The formulation shall contain petroleum distillates.

Physical and chemical requirements. Physical and chemical requirements shall be as specified below.

Tabel I Physical and Chemical Requirements

Property	Requirement
Gravity, API	27.0 to 29.0
Viscosity, CST@40^{0}F	3.4 to 5.0
Flashpoint (COC), ^{0}F min	230
Firepoint, (COC), ^{0}F min	260
Sulfur, percent (MAX)	0.10
Color	Any acceptable
Copper corrosion	None
Odor and appearance	Clear Oil

AMSC N/A FSC 6540

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Direction for use. The direction for use shall be plainly and indelibly marked with a label on the container. The direction shall state "For use with generator, ophthalmic lens. Ready to use. Nothing to be added."

Marking. Each container shall be marked with manufacturer's name or trademark, date of production and/or contract number.

Tests. Physical and chemical requirements shall be tested as specified under Quality Assurance Provisions.

Workmanship. The coolant shall be procesed in accordance with high grade commercial practice and shall be free from defects which detract from its appearance or impair its serviceability.

Unit. Can (CN). One can containing five gallons of coolant, as specified, constitutes one unit.

Quality Assurance Provisions.

Responsibility for inspection. Unless otherwise specified in the contract or purchase order, the contractor is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract of purchase order, the contractor may use his own or any facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

Records. Records of examinations and tests performed by or for the contractor shall maintained by the contractor and made available to the Government upon the Government's request, at any time, or from time to time, during the performance of the contract and for a period of three years after delivery of the supplies to which such records relate.

Inspection. Inspection, as used herein, is defined as both examination (such as visual or auditory investigation without the use of special laboratory appliances or procedures) and testing (determination by technical means of physical and chemical properties) of the item.

Sampling for tests. Sampling for test shall be conducted in accordance with MIL-STD-105, inspection level S-3. Acceptance level shall be zero. Test procedure shall be in accordance with Table II. The unit of product for tests pruposes shall be one unit container.

Check the source to verify that this is the current version before use.

Test procedures. Tests to determine conformance to the physical and chemical property requirements shall be conducted in accordance with methods of the American Society for Testing and Material (ASTM) methods indicated in Table II.

Table II Test Methods

Property	ASTM Method
Gravity	D287
Viscosity	D445
Viscosity index	D2270
Flash and Fire Point	D92
Sulfur	D129
Copper Corrosion	D130

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug, and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use the covered material in accordance with Public Law 94-580 to the maximum extent practical.

INSTRUCTIONS. *In a continuing effort to make our standardization documents better, the DoD provides this form for use in submitting comments and suggestions for improvements.* All users of military standardization documents are invited to provide suggestions. This form may be detached, folded along the lines indicated, taped along the loose edge *(DO NOT STAPLE)*, and mailed. In block 5, be as specific as possible about particular problem areas such as wording which required interpretation, was too rigid, restrictive, loose, ambiguous, or was incompatible, and give proposed wording changes which would alleviate the problems. Enter in block 6 any remarks not related to a specific paragraph of the document. If block 7 is filled out, an acknowledgement will be mailed to you within 30 days to let you know that your comments were received and are being considered.

NOTE. This form may not be used to request copies of documents, nor to request waivers, deviations, or clarification of specification requirements on current contracts. Comments submitted on this form do not constitute or imply authorization to waive any portion of the referenced document(s) or to amend contractual requirements.
