VV-K-211d

VV-K-211d
INTERIM AMENDMENT - 1(NAVY-Ships)
21 August 1964

FEDERAL SPECIFICATION

KEROSENE

(This interim amendment forms a part of Federal Specification VV-K-211d, dated July 20, 1962. It was developed by the Department of the Navy, Bureau of Ships, for immediate use pending the inclusion of its contents in a coordinated document.)

Page 2, paragraph 3.2, sub-item (e): Delete and substitute:

"(e) Flame characteristic at end of test. - At the end of the test there shall be no measurable change in the width of the flame and the height of the flame shall not have lessened (or lowered) by more than 1/8 inch from the respective measurements recorded at the start of the test."

Page 2, paragraph 4.1: Delete and substitute:

"4.1 Responsibility for inspection. - Unless otherwise specified in the contract or purchase order, the supplier is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified, the supplier may utilize his own facilities or any commercial laboratory acceptable to the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements."
