COMMERCIAL ITEM DESCRIPTION

BOTTLE, SCREW CAP

The General Services Administration has authorized the use of this Commercial Item Description.

This commercial item description covers the requirements for a French square screw cap bottle suitable for storing and transporting of chemicals.

Salient characteristics.

Shall be clear wide mouth French square bottle with screw cap closure. The bottle shall be fabricated of flint glass.

The bottle shall have a capacity of 250 milliliters (8 ounce). The normal capacity point of the bottle shall not extend above the bottom level of the neck. Shall have wide mouth opening with a continuous type conventionally used thread finish. The mouth opening of the bottle shall be large enough to readily permit filling and dispensing of the contents. Shall be so constructed that the bottle is stable when placed on a smooth flat surface.

The bottle shall be fitted with a black phenolic 43 millimeter screw cap closure. The screw cap shall include a flat disc-type vinyl liner. The screw cap shall be threaded with a continuous type thread. To provide for firm gripping for removing the screw cap, the outside vertical surface of the screw cap shall ribs.

Workmanship. The bottle shall be free from defects which detract from its appearance or impair its serviceability.

Unit. Package (PG). One package containing twelve bottles with screw caps, as specified, constitutes one unit.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Metric products. Products manufactured to metric dimensions will be considered on an equal basis with those manufactured using inch-pound units, providing they fall within the tolerances specified using conversion tables contained in the latest revision of Federal Standard 376, and all other requirements of this document are met. If a product is manufactured to metric dimensions and those dimensions exceed the tolerances specified in the inch-pound units, a request should be made to the contracting officer to determine if the product is acceptable. The contracting officer has the option of accepting or rejecting the product.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U. S. Food and Drug Administration to be under its jurisdiction, the offeror/ contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580, as amended, and as implemented by Federal Acquisition Regulation Subpart 23.4 to the maximum extent practical.
