COMMERCIAL ITEM DESCRIPTION

DISPENSER, GUMMED TAPE (AUTOMATIC TYPE)

The General Services Administration, Office Supplies and Paper Products Commodity Center, New York, NY 10278, has authorized the use of this Commercial Item Description in lieu of Federal Specification GG-D-450, which has been canceled.

This description covers gummed tape dispensers which dispense water-activated tape at preselected lengths and are suitable for general shipping room use.

1. **SALIENT CHARACTERISTICS:**

Tape Dispensers shall:

A. Have the capability to moisten and automatically cut tape at a preselected length without binding against any part of the dispenser. Tape shall be fed by a manually operated lever.

B. Have a length selection device with no less that 11 settings in any combination of 2-, 3-, or 4-inch increments and ranging up to the full stroke length of not less that 30 inches.

C. Dispense a continuous piece of tape of any length greater than the full stroke length with repeated partial strokes of the operating lever.

D. Have a firmly seated shear-type or guillotine-type metal blade suitable for manually cutting moistened gummed, regular or reinforced tape without wrinkling or tearing unevenly. Blade shall have a guard for operator protection during use.

E. Have a visible, auxiliary water supply and a mechanism for regulating the water flow to the gummed tape. Amount of water shall meet guidelines established by the tape manufacturer for optimal sticking .

Distribution Statement A:
Approved for public release; distribution is unlimited.

FSC 7520

F. Accommodate a tape roll of 1 inch up to 3-1/32 inches wide, 8 inches maximum outer diameter, with an inner core diameter of at least 1/2 inch (+ 1/16, - 0).

G. Have feet or a rubberized base that will not mar work surfaces (e.g. wood, glass or metal) and provide lateral stability.

H. Be marked in a legible and permanent manner with the manufacturer's name and/or trademark.

Workmanship: Except for the cutting edge of the blade, the tape dispenser shall be free of sharp edges. The tape dispenser shall also be free of any defects which will adversely affect appearance, impair serviceability, or which might constitute a personal hazard to the user, including, but not limited to, superfluous coating of any kind, burrs, scratches, niches, dents, blisters, crinkling, imbedded foreign matter, or discoloration. Any fasteners or pins used in the assembly shall be set in accordance with normal commercial practice, including, but not limited to, exhibiting a firmly tightened, flush seating. Component parts shall be easily removable for cleaning or replacement. The tape dispenser shall not exhibit evidence of deformity, including, but not limited to cracking, bending, loosened parts, warping, or visible stress marks, after testing as prescribed in paragraph 4.C.3.

Corrosion Resistance: Except for the actual cutting edge of the blade, all metal parts shall be resistant to corrosion. Individual parts shall be either corrosion resistant stainless steel or anodized, plated, finished with baked enamel, subjected to a bluing process, or whatever is commercially appropriate for the specific function of the part. The contractor shall provide a manufacturer's chemical certification of corrosion resistance upon request by the Government.

2. APPLICABLE DOCUMENTS AND DOCUMENT SOURCES: The following documents form a part of this Commercial Item Description to the extent specified herein. Unless otherwise indicated, the issue in effect on the date of invitation for bids or request for proposal shall apply:

Federal Standard:

Fed. Std. No. 123, Marking for Domestic Shipment (Civil Agencies) Activities outside the Federal Government may obtain copies of Federal Specifications, Standards, Handbooks, and Commercial Item Descriptions (CIDs), as outlined under General Information in the Index of Federal Specifications, Standards and Commercial Item

Descriptions. The Index, which includes cumulative bimonthly supplements as issued, is for sale on a subscription basis by the Superintendent of Documents, U. S. Government Printing Office, Washington, D. C. 20402.

Single copies of this Commercial Item Description, or other Commercial Item Descriptions required by activities outside the Federal Government for bidding purposes are available without charge from General Services Administration Business Service Centers in Boston; New York; Philadelphia; Washington, D. C.; Atlanta; Chicago; Kansas City, MO; For Worth; Houston; Denver; Los Angeles; San Francisco; and Auburn, WA.

Military Standards:

MIL-STD-105, Sampling Procedures and Tables for Inspection by Attributes

MIL-STD-129, Marking for Shipment and Storage

Copies of Military Specifications and Standards required by contractors in connection with specific procurement functions should be obtained from the Standardization Documents Order Desk; Building 4D; 700 Robbins Avenue; Philadelphia, PA 19111-5094; or as directed by the contracting officer.

Public Law:

Public Law 94-580, Resource Conservation and Recovery Act, is part of U. S. Code, Title 42. Copies of the U. S. Code may be obtained through the Congressional Sales Office, U. S. Government Printing Office, Washington, D. C. 20402.

3. **REGULATORY REQUIREMENT:** The offeror/contractor is encouraged to use recovered materials in accordance with Public Law 94-580 to the maximum extent practicable.

4. **QUALITY ASSURANCE:**

A. Responsibility for Inspection: Unless otherwise specified in the contract or purchase order, the supplier is responsible for the performance of all the inspection requirements of this CID. Except as otherwise specified, the supplier may utilize his own facilities or any commercial laboratory acceptable to the Government. The Government reserves the right to perform any of the inspections set forth in the Commercial Item Description, where such inspections are deemed necessary to assure that supplies and services conform to prescribed requirements (See Section 6, Ordering Data).

(4) **Examination for Preparation for Delivery.** Samples taken in accordance with paragraph 4.B.4 shall be examined to determined compliance with Section 5.

5. PREPARATION FOR DELIVERY.

A. Packaging and Packing Provisions. Each tape dispenser shall be packaged to prevent damage during multiple shipments, handling, and storage. Packaged tape dispensers shall be packed in accordance with normal commercial practice. The packing container shall be closed to prevent accidental opening and shall be such to insure carrier acceptable and safe delivery to destination, complying with the rules and regulations applicable to the mode of transportation to be used.

B. Marking.

(1) **For Shipment to Civilian Agencies.** In addition to any special marking required by contract or order, marking shall be in accordance with Fed. Std. No. 123. Bar Code marking is required, unless otherwise specified (See Section 6).

(2) **For Shipment to Military Activities.** In addition to any special marking required by contract or order, marking shall be in accordance with MIL-STD-129. Bar Code marking is required, unless otherwise specified (See Section 6).

6. ORDERING DATA: Purchasers should select the preferred options permitted herein, and include the following information in procurement documents:

(A) Title, number, and date of this Commercial Item Description.

(B) Arrangement for inspections and inspection facilities, if different than provisions under Quality Assurance.

(C) Special packaging and packing, if different than provisions in Packaging and Packing.

(D) The length selection settings.
