DATA ITEM DESCRIPTION

Title: AMMUNITION DEMILITARIZATION AND DISPOSITION PLAN
Number: DI-SAFT-81640A
Approval Date: 20210604
AMSC Number: F10255
Limitation: N/A
DTIC Applicable: No
GIDEP Application: No
Preparing Activity: 170 (AFLCMC Munitions)
Project Number: SAFT-2020-003
Applicable Forms: N/A

Use/Relationship: The Ammunition Demilitarization and Disposition Plan details the Contractor's strategy to execute planned demilitarization and disposition tasks, data, and requirements for new or modified ammunition items. It is used for the Contractor to identify and define, in detail, their processes and procedures to meet Government contract requirements.

a. This Data Item Description (DID) contains the format, content, and intended use information for the data deliverable resulting from the work task described in the contract documents.

b. This DID will be used by the Government on any contract when delivery of an Ammunition Demilitarization and Disposition Plan is required.

c. This DID supersedes DI-SAFT-81640.

Requirements:

1. Reference Documents: The applicable issue of the documents cited herein, including their approval dates and dates of any applicable amendments, notices, and revisions shall be as specified in the contract.

2. Format: The Ammunition Demilitarization and Disposition Plan shall be in Contractor-developed, Government-approved format.

3. Content: The Ammunition Demilitarization and Disposition Plan shall be an integrated document including the following:

3.1 Cover page, which shall include:

3.1.1 Ammunitions Item Name. The government will officially assign nomenclature in accordance with (IAW) MIL-STD-1812, *Aeronautical and Support Equipment Type Designation System,* and will identify nomenclature in the production contract. The Ammunition Demilitarization and Disposition Plan shall include the assigned nomenclature. For example, the DSU-33 Proximity Sensor's plan cover page, states: "DSU-33 Proximity Sensor Nomenclature". (MIL-STD-1812 is available online at: https://assist.dla.mil/.)

3.1.2 Department of Defense (DoD) Identification Code (DoDIC). The DoDIC is created during the cataloging process and the government will identify the DoDIC in the production contract.

Source: https://assist.dla.mil -- Downloaded: 2026-10-26T10:51Z
Check the source to verify that this is the current version before use.

3.1.3 Plan preparer's name.

3.1.4 Scientific and Technical Information (STINFO). STINFO markings shall be included IAW DoDI 5230.24, *Distribution Statements on Technical Documents*, and DoD Directive (DoDD) 5230.25, *Withholding of Unclassified Technical Data from Public Disclosure,* (These documents are available online at: https://www.esd.whs.mil/DD/.) and the markings shall include the following:

3.1.4.1 Distribution statement, to include:

3.1.4.1.1 One distribution statement alpha code.

3.1.4.1.2 Reason(s) for distribution restriction. All applicable reasons shall be listed.

3.1.4.1.3 Date of determination.

3.1.4.1.4 Controlling DoD Office (CDO) contact information.

3.1.4.2 Export Control Warning (when applicable), which shall include:

3.1.4.2.1 The following export control warning statement:

"WARNING - This document contains technical data whose export is restricted by the Arms Export Control Act (Sec 2751 of Title 22, United States Code) or the Export Control Reform Act of 2018 (Chapter 58 of Title 50, United States Code). Violations of these export laws are subject to severe criminal penalties. Disseminate in accordance with provisions of DoD Directive 5230.25."

3.1.4.2.2 "*Export Controlled"* shall be listed as one of the distribution statement reasons for distribution restriction in 3.1.4.1.2 above.

3.1.4.3 Destruction Notice. An unclassified or classified destruction notice shall be included, as applicable.

3.1.4.3.1 For unclassified documents, the following destruction notice shall be included IAW DoDI 5230.24, Enclosure 3, paragraph 17:

"DESTRUCTION NOTICE -- Destroy by any method that will prevent disclosure of contents or reconstruction of the document."

3.1.4.3.2 For classified documents, the following destruction notice shall be included IAW DoDM 5200.01V3, enclosure 3, sections 17-19, *Information Security Program: Protection of*

Source: https://assist.dla.mil -- Downloaded: 2026-10-26T10:51Z
Check the source to verify that this is the current version before use.

Classified Information:

"DESTRUCTION NOTICE -- Follow the procedures in DoD 5220.22-M, National Industrial Security Program Operating Manual (NISPOM), Section 5-700, and DoDM 5200.01V3, Enclosure 3, sections 17 – 19, Information Security Program: Protection of Classified Information."

(These documents are available online at: https://www.esd.whs.mil/.)

3.1.5 Controlled Unclassified Information (CUI). CUI markings shall be included (when applicable) IAW DoDI 5200.48, *Controlled Unclassified Information (CUI)*, and the DoD CUI Registry, (DoDI 5200.48 is available online at: https://www.esd.whs.mil/ and the DoD CUI Registry is available online at: https://www.dodcui.mil/Home/DoD-CUI-Registry/) to include:

3.1.5.1 The CUI control box, which shall follow the STINFO block required by 3.1.4 above. The cover page shall include, for example:

Controlled by: <insert CDO> (e.g., Air Force Lifecycle Management Center [AFLCMC]) Controlled by: <insert CDO / Organization> (e.g., AFLCMC/IP) CUI Category: Controlled Technical Information Distribution/Dissemination Control: <insert Distribution Statement alpha code> Point of Contact (POC): Name, Phone Number, and E-mail Address

3.1.5.2 "CUI" shall be either abbreviated or spelled out in the header and footer on the cover page, and on each applicable page of the plan.

3.1.6 Security classification markings. Security classification markings (when applicable) shall be included IAW DoDM 5200.01V2, *DoD Information Security Program: Marking of Information*. (DoDM 5200.01V2 is available online at: https://www.esd.whs.mil/.)

3.1.7 Revision or change number.

3.1.8 Date the plan was generated.

3.1.9 Demilitarization and Disposition Plan identification number (optional).

3.2 Table of contents.

3.3 List of tables.

3.4 List of figures.

3.5 Purpose, which shall include:

3.5.1 Objective. The following statement: "*This Ammunition Demilitarization and Disposition Plan identifies requirements necessary to accomplish safe and environmentally acceptable demilitarization and disposition of the ammunitions item.*"

Source: https://assist.dla.mil -- Downloaded: 2026-10-26T10:51Z
Check the source to verify that this is the current version before use.

3.5.2 Scope. A brief overview of the preferred process(es) being used.

3.5.3 Limitations, which shall include (when applicable):

3.5.3.1 Transportation.

3.5.3.2 Incinerator operations.

3.5.3.3 Washout operations.

3.5.3.4 Demilitarization and disposition of sub-assemblies covered in other plans.

3.5.3.5 Any other identified limitations not already mentioned above.

3.6 Ammunitions Item Description, which shall include:

3.6.1 Physical description. A detailed description of the ammunitions item configuration, including illustration(s).

3.6.2 Functional description. A detailed description of how the ammunitions item functions when used as intended.

3.6.3 Product baseline table. A table developed similarly to Table I below, which shall include: a complete drawing package for the ammunition item (exclude schematic drawings), and all the following fields or columns populated with the applicable data:

3.6.3.1 Assembly levels.

3.6.3.2 Description or Nomenclature.

3.6.3.3 Unit Weight (U.W.) in pounds (lbs).

3.6.3.4 Net Explosive Weight (N.E.W.) (lbs).

3.6.3.5 Quantity (Qty).

3.6.3.6 Drawing number (Drwg No.).

3.6.3.7 Specification or reference number, which shall include:

3.6.3.7.1 Current, not inactive or cancelled, reference documents.

3.6.3.7.2 Location where information is available.

3.6.3.8 Safety Data Sheet (SDS) for the ammunition item.

Source: https://assist.dla.mil -- Downloaded: 2026-10-26T10:51Z
Check the source to verify that this is the current version before use.

3.6.3.9 Composition, which shall include:

3.6.3.9.1 Material composition.

3.6.3.9.2 Component composition.

3.6.3.9.3 Basic constituents. If the contractor cannot provide the exact formula of a composition due to proprietary reasons, the basic constituents or components of the composition or material to meet the characterization requirements shall be provided.

Table I.
Product baseline table example.

Assembly level	Description	U.W. (LBS)	N.E.W. (LBS)	Qty.	Drwg No.	Specification	SDS	Composition
1.0	Cartridge .50 Cal, API MK 211 Mod	0.2521	0.0394	1	6086059	WS 25470	40939	
1.01	Case cartridge, .50 Cal	0.1243	0.0004	1	5502626			Brass
1.02	Primer percussion	0.0026		1	645339-1	MIL-P-46610	855	FED CTG K-75
1.02.01	Cup, primer	0.0000	0.0004	1		FEDd CTG 315		Brass
1.02.02	Mixer, primer	0.0004		1				Table II
1.02.04	Disc	0.0000		1				
1.03	Anvil	0.0000		1		MIL-L-10287		

3.6.3.10 Proprietary information (when applicable). A list of pertinent details describing contractor asserted limited rights on data, shall include:

3.6.3.10.1 Name of owning contractor.

3.6.3.10.2 Contact information of owning contractor.

3.6.3.10.3 Identified Government use rights.

3.6.3.10.4 Associated Government contract number.

3.6.3.11 Hazard Classification for ammunitions end item. Include either a final or an interim hazard classification.

3.7 Safety Summary. A description of the safety requirements for each ammunitions item shall include:

3.7.1 Ammunitions item storage.

3.7.2 Ammunitions item handling.

3.7.3 The identification of safety requirements directly related to the demilitarization process used.

Source: https://assist.dla.mil -- Downloaded: 2026-10-26T10:51Z
Check the source to verify that this is the current version before use.

3.7.4 Energetic and Hazardous Materials Table. A table developed similarly to Table II below, which shall include all of the energetic and hazardous materials in the ammunitions item:

3.7.4.1 Ammunitions item name (e.g., HNS, PBXN-5, Lithium, etc.), which shall follow the same format as 3.1.1 above.

3.7.4.2 Chemical composition of each energetic and hazardous material.

3.7.4.3 Drawing number (Drwg No.) associated with each ammunition item.

3.7.4.4 Specification (Spec) or reference number (No.), to include:

3.7.4.4.1 Current, not inactive or cancelled, reference documents (docs).

3.7.4.4.2 Location where information is available.

3.7.4.5 Net Explosive Weight (N.E.W.) [grains].

3.7.4.6 SDS for all energetic and hazardous materials in the ammunitions item.

3.7.4.7 Products of combustion. All information resulting from existing Propellant, Explosive, and Pyrotechnics (PEP) materials.

Table II.

Energetic and hazardous materials table example.

Item	Composition	Drwg No.	Spec No.	Reference Docs	Reference location	N.E.W [grains]	SDS	Products of combustion
Composition A-4	RDX/WAX		MIL-C-440		ASSIST	13.9000	311	
	RDX		MIL-R-398		ASSIST	13.4830	40425	
	Wax		MIL-W-20553		ASSIST	13.1000		
Incendiary mix	#136	6086063	7548270			13.1000	1772	
	Magnesium/Aluminum 50/50	7548270	JAN-M-454 TY A		8/15	6.4190		
	Potassium Perchlorate	7548270	MIL-P-217		53	6.4190		
	Calcium Resinate	7548270	MIL-C-20470 TY I		10059	0.2620		

3.7.4.8 Classification. Identify and list the classification source for all classified ammunitions items or components, and provide the minimum declassification requirements for each, or an interim.

3.7.5 Propellants Compositions Table. A table developed similarly to Table III below, which shall include all the propellants in the ammunitions item:

3.7.5.1 Ammunitions item name for each propellant, which shall follow the same format as 3.1.1 above.

3.7.5.2 Chemical composition of each propellant in the ammunitions item.

Source: https://assist.dla.mil -- Downloaded: 2026-10-26T10:51Z
Check the source to verify that this is the current version before use.

3.7.5.3 Drawing number (Drwg No.) associated with each ammunitions item.

3.7.5.4 Specification (Spec) or reference number (no.) for each ammunitions item, to include:

3.7.5.4.1 Current, not inactive or cancelled, reference documents (docs).

3.7.5.4.2 Location where information is available.

3.7.5.5 Net Explosive Weight (N.E.W.) [grains].

3.7.5.6 SDS for each propellant in the ammunitions item.

3.7.5.7 Products of combustion.

Table III.
Propellants compositions table example.

Item	Composition	Drwg No.	Spec No.	Reference Docs	N.E.W. [grains]	SDS	Products of combustion
Propellant #1	WC860	10534811	MIL-P-3984		100.0000	10101	
	Nitrocellulose		MIL-N-244		7.3000	31	
	Dinitrotoluene		MIL-D-204		1.0000	439	
	Graphite		MIL-G-155		0.4000	10161	
	Potassium Nitrate		MIL-P-156		1.5000	38	
	Sodium Sulfate		MIL-S-50004		0.5000	10067	
	Calcium Carbonate		MIL-C-293		1.000	10098	
	Nitroglycerin		MIL-N-246		11.0000	30	
	Diphenylamine		MIL-D-98		1.5000	408	
	Dibutylphthalate		MIL-D-218		10.0000	482	
	Tin Dioxide		MIL-S-50005		0.1000		

3.8 Environmental significance. An analysis describing the environmental significance for each demilitarization and disposition process shall include:

3.8.1 A list of all regulations applicable to the preferred demilitarization and disposition process.

3.8.2 A list of all impacts of all identified demilitarization and disposition processes.

3.8.3 A list of all identified output products of all treatment neutralization processes.

3.8.4 Methods used to determine the output products, such as: computer models bang box data, other empirical techniques, etc.

3.8.5 Recyclable materials. A list of all of the recyclable materials generated by the preferred demilitarization and disposition process.

3.8.6 Waste streams. Identification of all waste streams produced by the preferred demilitarization and disposition process, and combustion products from the energetic and hazardous materials table in 3.7.4 above.

3.8.7 Residual analysis. An analysis of residual material remaining in, or on, retrievable

Source: https://assist.dla.mil -- Downloaded: 2026-10-26T10:51Z
Check the source to verify that this is the current version before use.

hardware ammunitions items, such as: cartridge actuated devices, Jet Assisted Take Off (JATO) rocket motor cases after the ammunitions item has functioned as intended, etc.

3.9 Demilitarization and disposition alternatives. A description of alternative methods of demilitarization and disposition process shall include:

3.9.1 A summary of the demilitarization options available for each ammunitions item requiring demilitarization, to include:

3.9.1.1 Incineration.

3.9.1.2 Mutilation of inert hardware by shredding or crushing, neutralization, hydrolysis, or plasma arc destruction.

3.9.1.3 Any other demilitarization options available.

3.10 Demilitarization and disposition procedures. A detailed description of each demilitarization and disposition procedure shall include:

3.10.1 Step-by-step demilitarization and disposition procedures.

3.10.2 Safety precautions.

3.10.3 Disassembly diagrams.

3.10.4 Disassembly procedures. A description of procedures for disassembling ammunitions item to the point necessary to gain access or remove the energetic and hazardous materials, to include:

3.10.4.1 Fuze removal.

3.10.4.2 Pull apart.

3.10.4.3 Explosive washout or melt out.

3.10.4.4 Water jet cutting.

3.10.4.5 Any other procedures for disassembling ammunitions.

3.10.5 Declassification procedures.

3.10.6 Component and component piece-part table. A table developed similarly to Table IV below, which shall include each component and all of its piece-parts:

3.10.6.1 Component.

Source: https://assist.dla.mil -- Downloaded: 2026-10-26T10:51Z
Check the source to verify that this is the current version before use.

3.10.6.2 Figure number (No). The piece-part figure number associated with the component.

3.10.6.3 Piece-part name.

3.6.10.4 Piece-part quantity (Qty).

Table IV.
Component and component piece-part table example.

Component	Figure No.	Piece-part name	Qty.
Control Section 13008375	1.	Screw	8
	2.	Screw	12
	3.	Actuator Module Assembly	1
	4.	Control Section	1
	5.	Screw	4
	6.	Rear Launch Shoe	1
	7.	Frame Assembly	1
	8.	Screw	14

3.10.7 Demilitarization. A description of the processes used to remove or neutralize the military potential of a munition IAW DoDM 4160.21 series, *Defense Materiel Disposition:* V1-*Disposal Guidance and Procedures*; V2-*Property Disposal and Reclamation;* V3-*Reutilization, Transfer, and Sale of Property;* and V4-*Instructions for Hazardous Property and other Special Processing Materiel*. (These documents are available online at: https://www.esd.whs.mil/DD/.)

3.10.8 Disposition. A description of available disposition options, to include:

3.10.8.1 Treatment options for the demilitarized ammunitions items parts and residuals waste stream, such as: incinerator ash to hazardous waste landfill, inert hardware for sale or recycling, explosives for reuse or alternate use, etc.

3.10.8.2 Treatment options for the waste stream generated by processes, such as: hydrolysis of wastewater from explosive washout, wet scrub of incinerator off gases, etc.

NOTE: Detailed operating procedures for equipment or processes covered by references are ***not*** required in this section.

3.11 Demilitarization and disposition special tools and equipment. A list of all demilitarization and disposition special tools and equipment, which shall include:

3.11.1 Special tools required for the demilitarization and dispositioning procedures.

3.11.2 Equipment required for the demilitarization and dispositioning procedures.

3.12 Validation test, which shall include, as required:

3.12.1 Quantity of ammunitions items to be demilitarized for the validation test.

3.12.2 Tools required for the validation test.

Source: https://assist.dla.mil -- Downloaded: 2026-10-26T10:51Z
Check the source to verify that this is the current version before use.

3.12.3 Equipment required for the validation test.

3.12.4 Proposed location for the validation test.

3.12.5 Any other pertinent information required for the validation test.

3.13 Technical reference documents, which shall include:

3.13.1 A list of current, not inactive or cancelled, reference documents, including:

3.13.1.1 Technical Manuals (TM).

3.13.1.2 Technical Orders (TO).

3.13.1.3 Depot Maintenance Work Requirement (DMWR).

3.13.1.4 DoD regulations, when applicable to the preferred demilitarization process.

3.13.1.5 Non-DoD regulations, when applicable to the preferred demilitarization process.

3.13.1.6 Any other applicable technical references.

3.13.2 Location where the information is available.

3.14 Terms and definitions. A comprehensive list of terms and definitions to further define or clarify the meaning of a word or term in the plan shall be included.

End of DI-SAFT-81640A
