INTERIM AMENDMENT

TO

FEDERAL SPECIFICATION

EMBOSSING MACHINES, IDENTIFICATION TAPE, (MANUALLY OPERATED)

This Interim Amendment was developed by the General Services Administration, Federal Supply Service, Standardization Division, Washington, DC 20405, based upon currently available technical information. It is recommended that Federal agencies use it in procurement and forward recommendations for changes to the preparing activity at the address shown above.

The General Services Administration has authorized the use of this interim amendment as a valid exception to Federal Specification OO-E-491E, dated April 17, 1975.

PAGE 3

Paragraph 3.3.2.1.5, line 3, delete "0.375" and substitute "0.350". At end of sentence after "inch" add "or other heights as specified".
