6.1 Intended use. The hand receipt publications prepared in accordance with this specification should provide overprinted DA Form 2062 hand receipts covering the line item entry for system/end item and the content of the applicable COEI, BII, and AAL. a. Title, number, and date of this specification.

b. Verification requirements (see 4.1).

c. Packaging requirements (see 5.1).

6.3 TM acquisition. The requirement for technical manuals should be considered when this specification is applied on a contract. If technical manuals are required, specifications and standards that have been authorized and assigned an Acquisition Management Systems Control (AMSC) number must be listed on a separate Contract Data Requirements List (DD Form 1423), which is included as an exhibit to the contract. The technical manuals must be acquired under separate contract line item in the contract. .

6.4 Supersession data. The following documents are superseded by MIL-PRF-32436:

a. MIL-HDBK-503(TM), dated 19 September 1997.
