COMMERCIAL ITEM DESCRIPTION

HAND CLEANER (PADS)

This commercial item description is approved by the Commissioner, Federal Supply Service, General Services Administration, for the use of all Federal Agencies.

SCOPE

This commercial item description covers pre-moistened pads to remove inks and other office soils from hands.

SALIENT CHARACTERISTICS

The finished product shall consist of 50 pads, moistened with a cleaning solution and packaged in a plastic bag and put into a tight fitting reclosable plastic container.

Pad dimensions. Each pad shall have a minimum surface area of 7.0 square inches and shall be round or square.

Odor. The odor of pad shall not be stronger than that of undiluted isopropanol when tested in accordance with ASTM D 1296.

Cleaning solution. The cleaning solution shall be non-toxic and non-hazardous to human health.

Weight of cleaning solution. Each container with 50 pads shall contain at least 90.0 grams of cleaning solution, when tested as follows:

Record the weight of three unopened containers as a tare weight. Remove pads from each container and evaporate off cleaning solution by drying in a 105° C oven overnight. (Dry plastic containers and bags separtely. They may melt.) Reweigh the dried cleaning pads and containers with bag and calculate in the following manner:

Total weight of cleaning solution = Tare weight - (Wt. of containers w/bag + dried cleaning pads)

pH. The extracted cleaning solution at 25° C shall be 6.0 to 9.0 pH units, when tested in accordance with ASTM E 70.

Performance. The wet pad shall not stain white paper or cloth, shall not shred or pill, or cause irritation to skin. Two cleaning pads shall be capable of completely removing the test soil from the palm of hand, except for soil which is embedded in creases of the skin.

Standard test soils. The standard test soils shall consist of:

Ball point pen ink, black	Four lines of 2.54 cm (1 inch) long
Felt tip marker ink, black	Area of 2.54 cm (1 inch) diameter
Stamp pad ink, black	Area of 2.54 cm (1 inch) diameter

Procedure: Uniformly mark palm of one hand with above soiling media. Wait for 1 minute, then wipe the soiled area with both sides of the pads. Test pads shall not separate or unravel during use. In addition, after cleaning and drying, the hand shall be free from any visible, sticky or gritty residue left from the nonvolatile matter of the cleaning solution.

MSDS. A Material Safety Data Sheet shall be prepared and submitted in accordance with the latest issue of FED-STD-313.

DISTRIBUTION STATEMENT A: Approved for public release. Distribution is unlimited. FSC 8520

QUALITY ASSURANCE

Certification. The contractor shall certify that the product offered meets the salient characteristics of this description and that the product conforms to the producer's own drawing, specifications, standards and quality assurance practices and is the same product offered for sale in the commercial marketplace. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

PREPARATION FOR DELIVERY

Packaging, packing, and marking. The hand cleaner pads shall be packaged in a recloseable plastic container with a plastic bag liner and tight-fitting lid and packed in accordance with normal commercial practice and shall assure acceptance by common carrier and provide product protection against loss and damage during multiple shipments, handling, and storage. The shipping container shall be in compliance with the National Motor Freight Classification and Uniform Freight Classification. Marking shall be as specified in the contract or order.

NOTES

The issues of the ASTM standards in effect on the date of the solicitation shall be used to determine compliance with stated requirements. ASTM Standards are available from American Society for Testing and Materials, 1916 Race Street, Philadelphia, PA 19103

Code of Federal Regulations (CFR) may be obtained from the Superintendent of Documents, U. S Government Printing Office, Washington, DC 20402

FED-STD-313 is available from GSA Business Service Centers in Boston, MA; New York, NY; Washington, DC; Philadelphia, PA; Atlanta, GA; Chicago, IL; Kansas City, MO, Fort Worth, TX; Denver, CO; San Francisco, CA; Los Angeles, CA; and Auburn, WA.
