COMMERCIAL ITEM DESCRIPTION

SWAB, TOILET, ALL SYNTHETIC

The General Services Administration has authorized the use of this commercial item description by all Federal agencies.

1. SCOPE

1.1 Scope. This commercial item description (CID) covers a synthetic toilet swab with integral wringing cup.

2. SALIENT CHARACTERISTICS

2.1 General description. The toilet swab shall consist of a handle, swab head, and wringing cup, configured similar to figure 1. The handle may be straight as depicted in figure 1, or be bent near the swab head. The handle shall be 10 inches (25.4 cm) long minimum and 0.625 inch (1.6 cm) minimum in diameter. The head yarns shall be secured to the handle so that they are not removable by hand. The yarns shall extend from the handle a minimum of 4 inches (10.2 cm), and weigh a minimum of 0.4 ounces (12 g). The wringing cup shall move up and down the handle and be large enough and flexible enough that a user can squeeze liquid out of the head using the wringing cup without soiling the user's hands. The cup shall seal to the handle sufficiently that liquid being squeezed from the head does not leak around the handle to wet the user's hand. The color of the handle, head and squeeze cup shall be white.

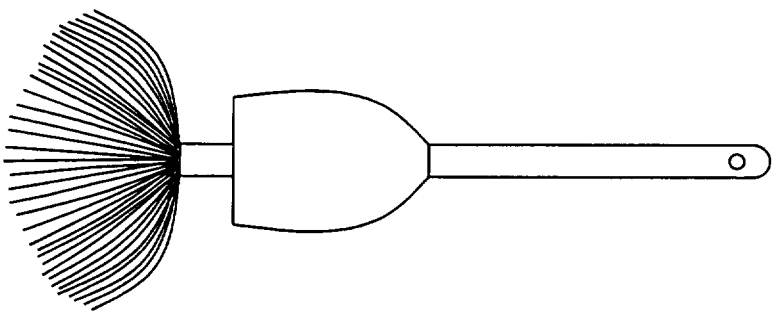

Figure 1

2.2 Materials. The handle shall be molded plastic. The swab head shall be composed of polyester yarns. The cup shall be flexible plastic.

Beneficial comments, recommendations, additions, deletions, clarifications, etc. and any data which may improve this document should be sent to: General Services Administration, Engineering Branch (7FXEE), 819 Taylor Street, Fort Worth, TX 76102

Check the source to verify that this is the current version before use.

2.3 Workmanship. The swab shall be clean and free from defects that may affect appearance, durability or serviceability.

2.4 Metric products. Products manufactured to metric dimensions will be considered on an equal basis with those manufactured using inch-pound units, providing they fall within tolerances specified and all other requirements of this document are met.

3. REGULATORY REQUIREMENTS

3.1 Regulatory requirements. The offeror/contractor is encouraged to use recovered materials to the maximum extent practicable, in accordance with paragraph 23.403 of the Federal Acquisition Regulation (FAR).

4. QUALITY ASSURANCE PROVISIONS

4.1 Product conformance. The products provided shall meet the salient characteristics of this CID, shall conform to the producer's own drawings, specifications, standards, and quality assurance practices, and shall be the same product offered for sale in the commercial market. The government reserves the right to require proof of such conformance.

5. PACKAGING, PACKING AND MARKING

5.1 Packaging, packing and marking. The packaging, packing, and marking shall be as specified in the contract or order.

6. NOTES

6.1 Intended use. The toilet swab is intended for use in swabbing out toilets using household cleaning solutions.

6.2 Ordering data. Purchasers should select the preferred options permitted herein and include the following information in procurement documents:

a. Title, number, and date of this CID.
b. The packaging, packing and marking desired.

6.3 National Stock Number. NSN 7920-00-492-5971 utilizes this document.
