COMMERCIAL ITEM DESCRIPTION

CREOSOTE, TECHNICAL (WOOD PRESERVATIVE)

The General Services Administration has authorized the use of this commercial item description in preference to Federal Specification TT-C-655.

This description covers a coal-tar creosote intended for use in the preservative treatment of wood by brush, spray or dip methods.

Salient characteristics:

The coal-tar creosote shall be a distillate derived entirely from tar produced by the carbonization of bituminous coal, conforming to table I of ASTM D 390.

The issue of ASTM D 390 in effect on the date of the solicitation shall be used to determine compliance with this requirement.

Regulatory requirements. The offeror/contractor is encouraged to use recovered materials in accordance with Public Law 94-580 to the maximum extent practicable, and this product shall be registered and labeled in accordance with the Regulations for the Enforcement of the Federal Insecticide, Fungicide and Rodenticide Act (Code of Federal Regulations, Title 40, Part 162).

Preservation, packaging, packing, labeling, and marking. Preservation, packaging, packing, labeling, and marking shall be as specified in the contract or order.

Note: The ASTM standards are available from the American Society for Testing and Materials, 1916 Race Street, Philadelphia, PA 19103.
