COMMERCIAL ITEM DESCRIPTION

DUSTPAN (LONG HANDLE)

The General Services Administration has authorized the use of this commercial item description in lieu of Interim Federal Specification RR-D-00799.

This commercial item description covers dustpans with a long handle and swinging pan.

Salient characteristics:

Pan:
Shall consist of a bottom, sides, back, an hood.

Constructed of 0.0164 inch minimum sheet steel.

Front edge width - 10-1/2 to 12-1/2 inches.

Depth - 7-1/2 inches minimum.

Hood to pan bottom (clearance)-2-1/2 inches minimum.

Shall swing downward into a vertical position to retain debris when lifted by handle.

Handle:
Constructed of suitable material, minimum length 26 inches.

Means of attachment to a wall hook.

Protective finish.

Workmanship. Dustpans shall be free from chipped paint, sharp edges, splits, dens or corrosion.

Certification. The contractor shall certify that the product offered meets the salient characteristics of this description and that the product conforms to the producer's own drawings, specifications, standards, and quality assurance practices and is the same product offered for sale in the commercial marketplace. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Recovered materials. The manufacturer shall utilize recovered materials to the maximum extent practicable.

Packaging, packing, and marking. The packaging and packing shall be in accordance with normal commercial practice and shall assure acceptance by common carrier and provide product protection against loss and damage during multiple shipments, handling, and storage. The shipping container shall be in compliance with the National Motor Freight Classification and Uniform Freight Classification. Marking shall be as specified in the contract or order.
