COMMERCIAL ITEM DESCRIPTION

ADHESIVE, SEMI-SOLID STICK FORM, WITH DISPENSER

The General Services Administration has authorized the use of this commercial item description by all federal agencies.

1. **SCOPE.** This commercial item description covers a general-purpose adhesive, with dispenser. The commercially available adhesive shall be suitable for bonding paper, cardboard, fabrics, and polystyrene foam as well as mounting photographic prints, maps, and drawings.

2. **CLASSIFICATION.** The stick adhesive (glue stick) shall conform to the following types, classes, and sizes:

2.1 Types

Type I: White on application, dries clear.

Type II: Colored on application, dries clear.

2.2 Classes

Class A: Softening Range 50 +/- 3 deg.C (122 +/- 5 deg.F).

Class B: Softening Range 80 +/- 3 deg.C (176 +/- 5 deg.F).

2.3 Sizes

Small: 5 grams (0.2 oz) min. to 10 grams (0.7 oz) max.

Large: 21 grams (0.7 oz) min. to 36 grams (1.3 oz) max.

Beneficial comments, recommendations, additions, deletions, clarification, etc., and any data which may improve this document should be sent to: GSA, Hardware and Appliances Center, 1500 East Bannister Road, Kansas City, MO 64131.

3. SALIENT CHARACTERISTICS.

3.1 Adhesive Materials

a. The adhesive shall be even spreading and shall not contain lumps, globs, dirt or other foreign material. The adhesive shall not be stringy.
b. The adhesive shall be visible when applied but shall dry clear.
c. The effective drying time at 25 deg. C shall be twenty minutes maximum.
d. Fibers of the paper shall remain embedded in the adhesive when bonded papers are separated twenty minutes after adhesive application. The two papers shall be joined using finger pressure for ten seconds.
e. The adhesive shall not discolor the material being bonded nor the substrate to which it is applied.
f. The adhesive shall not wrinkle, shrink, or curl the material being bonded or the substrate to which it is applied.

3.2 Dispenser Design

a. The dispenser shall be constructed of impact resistant material.
b. The dispenser shall be that offered in the commercial marketplace.
c. The dispenser shall be supplied with a well-fitted cap.
d. A mechanism for advancing and retracting the adhesive shall be provided.
e. Instructions for use shall be printed on the dispenser.

4. REGULATORY REQUIREMENTS

In accordance with the section 23.403 of the Federal Acquisition Regulations, the Government's policy is to acquire items composed of the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition without adversely affecting performance requirements or exposing suppliers' employees to undue hazards from the recovered materials.

5. QUALITY ASSURANCE PROVISIONS

5.1 Contractor Certification

The contractor shall certify and maintain substantiating evidence that the product offered meets the salient

characteristics of this Commercial Item Description, and that the product conforms to the producer's own drawings, specifications, standards, and quality assurance practices, and is the same product offered for sale in the commercial marketplace. The government reserves the right to require proof of such conformance prior to the first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

6. PACKAGING

The adhesive sticks shall be packaged in accordance with normal commercial practice and packed in fiberboard boxes that will assure acceptance by common carrier and provide protection against loss and damage during multiple shipments, handling, and storage. The shipping container shall be in compliance with the National Motor Freight Classification or Uniform Freight Classification.

MILITARY INTEREST:

NONE: DoD has no registered interest in revision and amendments to this Commercial Item Description until Further notice.
