PROCUREMENT SPECIFICATION	AIR FORCE-NAVY AERONAUTICAL STANDARD	AN3032
MIL-L-6730	LIGHT ASSEMBLY, WING POSITION RECESSED	

NOTICE—When Government drawings, specifications, or other data are used for any purpose other than in connection with a definitely related Government procurement operation, the United States Government thereby incurs no responsibility nor any obligation whatsoever; and the fact that the Government may have formulated, furnished, or in any way supplied the said drawings, specifications, or other data is not to be regarded by implication or otherwise as in any manner licensing the holder or any other person or corporation, or conveying any rights or permission to manufacture, use, or sell any patented invention that may in any way be related thereto.

NOTE—This drawing was approved by the Departments of the Air Force and Navy Department as an Air Force-Navy standard for the product. The following supersedes all existing standard drawings for the same product and shall become effective for the procurement of aeronautical supplies for use in new design, not later than six months after the effective date of approval shown.
