COMMERCIAL ITEM DESCRIPTION

MACARONI AND BEEF IN TOMATO SAUCE, FROZEN

The U.S. Department of Agriculture (USDA) has authorized the use of this Commercial Item Description (CID).

1. SCOPE. This CID covers frozen macaroni and beef in tomato sauce (macaroni and beef) packed in commercially acceptable containers, suitable for use by Federal, State, local governments, and other interested parties.

2. PURCHASER NOTES. Purchasers *shall specify* the following:

- Style(s) and noodle type(s) of macaroni and beef desired (Sec. 3).
- When analytical requirements are different than specified (Sec. 7.1).
- When analytical requirements need to be verified (Sec. 7.2).
- Manufacturer's/distributor's certification (Sec. 10.1) or USDA certification (Sec. 10.2).

3. CLASSIFICATION. The macaroni and beef shall conform to the following list which shall be specified in the solicitation, contract, or purchase order.

Styles and noodle types.[1]

Style A - Regular
Style B - Lean (9 Code of Federal Regulations (CFR) § 317.362(e))
Style C - Other[2] *(as specified by the purchaser)*

Noodle type 1 - Made with wheat flour[3]
Noodle type 2 - Made with semolina flour[3]
Noodle type 3 - Made with durum flour[3]
Noodle type 4 - Other[4] *(as specified by the purchaser)*

[1] Not all options are available from every manufacturer. Check with the manufacturer/distributor for availability.
[2] May include products making nutrient content claims that shall meet the applicable provisions of the Specific Requirements for Nutrient Content Claims (21 CFR §§ 101.54 through 101.65)
[3] The lasagna noodles shall comply with the Allergen Declaration Requirements of the Federal Food, Drug, and Cosmetic Act (Section 403(w)(1)).
[4] Shall meet the Requirements for Specific Standardized Macaroni and Noodle Products. If used to specify a gluten-free product, the noodles shall comply with the Gluten-Free Labeling Requirements when they become finalized.

4. MANUFACTURER'S/DISTRIBUTOR'S NOTES. Manufacturer's/distributor's products *shall meet* the requirements of the:

- Processing guidelines (Sec. 5).
- Salient characteristics (Sec. 6).
- Analytical requirements: *as specified by the purchaser* (Sec. 7).
- Manufacturer's/distributor's product assurance (Sec. 8).
- Regulatory requirements (Sec. 9).
- Quality assurance provisions: *as specified by the purchaser* (Sec. 10).
- Packaging requirements other than commercial: *as specified by the purchaser* (Sec. 11).

5. PROCESSING GUIDELINES.

5.1 Processing. The macaroni and beef shall be processed in accordance with Current Good Manufacturing Practices (21 CFR Part 110).

5.2 Food security. The macaroni and beef shall be processed and transported in accordance with the Food and Drug Administration's (FDA's) *Guidance for Industry: Food Producers, Processors, and Transporters: Food Security Preventive Measures Guidance*.[5] This guidance identifies the kinds of preventive measures food manufacturers, processors, or handlers may take to minimize the risk that food under their control will be subject to tampering or other malicious, criminal, or terrorist actions. The implementation of enhanced food security preventive measures provides for the security of a plant's production processes and includes the storage and transportation of pre-production raw materials, other ingredients, and postproduction finished product.

5.3 Age requirement. Unless otherwise specified in the solicitation, contract, or purchase order, the macaroni and beef shall be manufactured not more than 90 days prior to delivery.

6. SALIENT CHARACTERISTICS.

6.1 Ingredients. The macaroni and beef shall consist of beef, sauce, spices, macaroni, and safe and suitable sweeteners, thickeners, and emulsifiers. All ingredients shall be declared by their common or usual name in descending order of predominance by weight (21 CFR § 101.4(a)) unless exempted by 21 CFR § 101.100.

6.1.1 Meat. The beef shall conform to the applicable provisions of the meat and poultry products inspection and certification requirements (9 CFR Parts 301 to 350). The beef shall comply with all applicable provisions of the Institutional Meat Purchase Specifications (IMPS), including the Acceptable Quality Levels (AQLs) for major and minor defects, and the defect levels specified in Table 100I of the IMPS Quality Assurance Provisions (QAPs). The macaroni

Check the source to verify that this is the current version before use.

and beef shall meet the requirements of the USDA Food Standards and Labeling Policy Book for macaroni and beef.

6.1.2. Sauce and spices. The sauce shall contain tomato puree or tomato paste. The sauce may contain diced tomatoes, onions, peppers, mushrooms, sweeteners, thickeners, salt, and spices, including garlic and other spices common to tomato-based sauce.

6.1.3 Macaroni. The macaroni shall comply with the FDA Standard of Identity for Macaroni Products (21 CFR § 139.110), or Enriched Macaroni Products (21 CFR § 139.115), or Noodle Products (21 CFR § 139.150), or Enriched Noodle Products (21 CFR § 139.155).

6.1.4 Additional ingredients. The macaroni and beef may contain food ingredients permitted by the FDA for thickening, emulsifying, stabilizing, preserving, or enhancing flavor. Food additives or generally recognized as safe (GRAS) substances shall be of Food Chemicals Codex Purity or US Pharmacopeia-National Formulary quality and meet the related FDA regulations on food additives or GRAS requirements. Any additional ingredients added directly to the meat components shall comply with the Food Ingredients and Sources of Radiation section of the Regulatory Requirements Under the Federal Meat Inspection Act and the Poultry Products Inspection Act (9 CFR § 424.21), or Safe and Suitable Ingredients Used in the Production of Meat, Poultry, and Egg Products (FSIS Directive 7120.1[6]).

6.1.5 Foreign material. All ingredients shall be clean, sound, wholesome, and free from foreign material, such as hair, wood, glass, plastic pieces, evidence of rodent or insect infestation, and metal contaminants, including, but not limited to, ferrous, non-ferrous, and stainless steel. All tomato products shall comply with the defect action levels specified in the FDA Defect Levels Handbook currently in effect on the date of the solicitation, contract, or purchase order.

6.2 Finished product. The finished macaroni and beef shall show no evidence of spoilage, thawing and refreezing, or excessive heating (materially scorched).

6.2.1 Appearance. The overall appearance of the macaroni and beef shall not be mushy or pasty and there shall not be excessive oil separation from the product. There shall be no foreign color to the product.

6.2.2 Aroma and flavor. The macaroni and beef shall have an aroma and flavor characteristic of prepared macaroni and beef in tomato sauce. There shall be no foreign odors or flavors, such as, but not limited to, burnt, scorched, stale, rancid, or moldy.

6.2.3 Texture. The texture of the macaroni shall not be rubbery, mushy, or pasty. The sauce shall not be excessively thin, thick, or pasty. The meat shall not be rubbery or tough.

7. ANALYTICAL REQUIREMENTS.

7.1 Analytical requirements. Unless otherwise specified in the solicitation, contract, or purchase order, the macaroni and beef shall comply with the following ranges and tolerances:

Test	Tolerance
Monosodium glutamate (MSG)	Less than 2.27g per 227 g (8 oz) (1 percent) of finished product
Fat	Less than 14.0 g per 227 g (8 oz) of finished product
Sodium	Less than 1,200 mg per 227 g (8 oz) of finished product
Standard Plate Count	Less than 50,000 CFU per g
Escherichia coli (E. coli)	Less than 3 per g using Most Probable Number (MPN) or less than 10 Colony Forming Units (CFU) per g
E. coli O157:H7	Shall be negative
Listeria monocytogenes (*L. monocytogenes)*	Shall be negative
Salmonella	Shall be negative

7.2 Product verification sampling. When USDA verification of analytical requirements is specified in the solicitation, contract, or purchase order, analytical testing shall be performed on a composite sample. The composite sample shall be 1.134 kg (2.5 lb) per lot, prepared from a minimum of sixty representative subsamples or retail packages randomly selected from the lot.

7.3 Analytical testing. When specified in the solicitation, contract, or purchase order, the analyses shall be made in accordance with the following methods from the AOAC International Official Methods of Analysis (OMA) or the FDA's Bacteriological Analytical Manual (BAM) as specified below:

Test	Method
MSG	970.37
Fat	985.15, 991.36, 2007.04, or 2008.06
Sodium	985.35 or 984.27
Standard Plate Count	990.12 or BAM Ch 3
E. coli	991.14, 998.08, 2011.17, or BAM Ch 4
E. coli O157:H7	2000.14, 2005.03, or BAM Ch 4A
L. monocytogenes	999.06, 2003.12, 2004.02, 2010.02, or BAM Ch 10
Salmonella	967.25, 967.27, 996.08, 2003.09, 2004.03, 2011.03, 2011.17, or BAM Ch 5

Source: https://assist.dla.mil -- Downloaded: 2026-10-26T08:34Z
Check the source to verify that this is the current version before use.

7.4 Test results. Test results shall be reported to the nearest 0.1 percent for MSG content, to the nearest 0.1 g for fat content, and to the nearest mg for sodium content. The test results for standard plate count shall be reported to the nearest 100 CFU per g. The test results for *E. coli* shall be reported to the nearest MPN or CFU. The test results for *E. coli* O157:H7, *L. monocytogenes*, and S*almonella* shall be reported as positive or negative. Any result not conforming to the analytical requirements shall be cause for rejection of the lot.

8. MANUFACTURER'S/DISTRIBUTOR'S PRODUCT ASSURANCE. The manufacturer/ distributor shall certify that the macaroni and beef provided meets the salient characteristics of this CID, conforms to their own specifications, standards, and quality assurance practices, and is the same macaroni and beef offered for sale in the commercial market. The purchaser reserves the right to require proof of conformance.

9. REGULATORY REQUIREMENTS. The meat components and the finished product shall originate and be produced, processed, and stored in compliance with all applicable provisions of the Federal Meat Inspection Act and regulations promulgated thereunder. The delivered macaroni and beef shall comply with all applicable Federal and State mandatory requirements and regulations relating to the preparation, packaging, labeling, storage, distribution, and sale of the macaroni and beef in the commercial marketplace. Delivered macaroni and beef shall comply with all applicable provisions of the Federal Food, Drug, and Cosmetic Act, the Fair Packaging and Labeling Act, and regulations promulgated thereunder. When a known allergen is included in the macaroni and beef, the macaroni and beef shall comply with the allergen labeling requirements of the Federal Food, Drug, and Cosmetic Act. When the macaroni and beef is used for the National School Lunch Program, the macaroni and beef shall comply with all applicable provisions of the Child Nutrition (CN) Programs.

10. QUALITY ASSURANCE PROVISIONS. *Purchaser shall specify 10.1 or 10.2.*

10.1 Manufacturer's/distributor's certification. When required in the solicitation, contract, or purchase order, the manufacturer/distributor shall certify that the finished macaroni and beef distributed meets or exceeds the requirements of this CID.

10.2 USDA certification. When required in the solicitation, contract, or purchase order that product quality, acceptability or both be determined, the Specialty Crops Inspection Division (SCI), Fruit and Vegetable Program (FV), Agricultural Marketing Service (AMS), USDA, shall be the certifying agency. SCI inspectors shall certify the quality and acceptability of the macaroni and beef in accordance with SCI procedures which include: selecting random samples of the macaroni and beef, evaluating the samples for conformance with the salient characteristics of this CID and other contractual requirements, and documenting the findings on official SCI score sheets or certificates. In addition, when required in the solicitation, contract, or purchase order, SCI will examine the macaroni and beef for conformance to the U.S. Standards for Condition of Food Containers (7 CFR Part 42) in effect on the date of the solicitation, contract, or purchase order.

11. PACKAGING. Preservation, packaging, packing, labeling, and case marking shall be commercial unless otherwise specified in the solicitation, contract, or purchase order.

12. USDA INSPECTION NOTES. When Section 10.2 is specified in the solicitation, contract, or purchase order, USDA certification shall include evaluation of the quality and condition of samples of macaroni and beef and compliance with requirements in the following areas:

- Processing guidelines (Sec. 5).
- Salient characteristics (Sec. 6).
- Analytical requirements *when specified in the solicitation, contract, or purchase order* (Sec. 7). When USDA analytical testing is specified, SCI inspection personnel shall select samples and submit them to the USDA, Science and Technology Programs (S&TP) laboratory for analysis.
- Packaging requirements (Sec. 11 or *as specified in the solicitation, contract, or purchase order*).

13. REFERENCE NOTES.

13.1 USDA certification contact. For a USDA certification contact the **Chief, Inspection Branch, SCI, FV, AMS, USDA, STOP 0240, 1400 Independence Avenue, SW, Washington, DC 20250-0240, telephone (202) 720-2482, fax (202) 720-0393, or via E-mail: Nathaniel.Taylor@ams.usda.gov.**

13.2 Analytical testing and technical information contact. For USDA technical information on analytical testing, contact **the Science & Technology Program (S&TP), AMS, USDA, STOP 0272, 1400 Independence Avenue, SW, Washington, DC 20250-0272, telephone (202) 720-5231 or via E-mail: Alan.Post@ams.usda.gov or Ruihong.Guo@ams.usda.gov.**

13.3 Sources of documents.

13.3.1 Sources of information for nongovernmental documents are as follows:

Copies of the AOAC International OMA may be obtained from: **AOAC International, 481 North Frederick Avenue, Suite 500, Gaithersburg, MD 20877-2417, telephone (301) 924-7077. Internet address: http://www.aoac.org for nonmembers and http://www.eoma.aoac.org for members and AOAC OMA subscribers.**
