COMMERCIAL ITEM DESCRIPTION

BOTTLE, DROPPING

The General Services Agency has authorized the use of this Commercial Item Description in preference to Interim Federal Specification NNN-B-001194 (DSA-DM) as applicable to Type I and Grade A bottles.

Salient characteristics:

Shall be glass bottles with ground-in stoppers for dispensing drops of liquids (e.g., biological stains, reagents and indicator solutions).

Shall be of the following classes and capacity sizes:

Class 1 - Light-resistant glass
Class 2 - Clear glass
Size 1 - 30 milliliters (ml)
Size 2 - 60 milliliters (ml)
Size 3 - 200 milliliters (ml)

Shall be fabricated from soda lime glass.

The bottles shall be cylindrically uniform with a flat or slightly concave base, a rounded shoulder, and a neck with a narrow mouth. The inner surface of the mouth opening shall be ground to accommodate a ground-in stopper.

The bottles and corresponding stoppers shall be made with two diametrically opposed channels in the lower half of the neck and corresponding grooves in the upper half of the stopper. One set of channels and grooves shall be a vent for air, and the other set of channels and grooves for dispensing fluid drops when the bottle is tilted. The fluid drops shall be dispensed through a protruding spout on the stopper.

The stopper tops shall be in the form of either a high-crown (TK) with protruding spout, or a flat head with a projecting lug on the side for dispensing.

The bottles with fitted stoppers shall only be able to dispense fluids when the channels and grooves are properly aligned. Turning the stoppers from the alignment position shall seal the bottles.

Workmanship. The bottles and stoppers shall be free from defects which detract from their appearance or impair their serviceability.

Unit. Each (EA). One bottle of the size specified, constitutes one unit.

AMSC N/A FSC 6640

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Quality Assurance Provisions.

Responsibility for inspection. Unless otherwise specified in the contract or purchase order, the contractor is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract or purchase order, the contractor may use his own or any facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

Records. Records of examinations and tests performed by or for the contractor shall be maintained by the contractor and made available to the Government upon the Government's request, at any time, or from time to time, during the performance of the contract and for a period of three years after delivery of the supplies to which such records relate.

Inspections. Inspections, as used herein, is defined as both examination (such as visual or auditory investigation without the use of special laboratory appliances or procedures) and testing (determination by technical means of physical and chemical properties) of the item.

Inspections and tests. Inspections and tests shall be conducted in accordance with commercial practice to determmine compliance with specification requirements. Where feasible, the same sample shall be used for the determination of two or more test characteristics.

Samping for inspections and tests. Sampling for inspections and tests shall be conducted in accordance with commercial practice.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U. S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.

The following National Stock Numbers are covered by this document:

6640-00-379-4604 for Size 3 (200 ml) and class 2 bottle.
6640-00-379-4605 for Size 2 (60 ml) and class 1 bottle.
6640-00-720-2752 for Size 2 (60 ml) and class 2 bottle.

Ordering data. (Intermediate/exterior package quantities and labeling and marking must be specified in the contract and/or order).
