Workmanship. Product shall be free from defects which detract from its appearance or impair its serviceability.

Unit. Package (PG).

For Strength 1 and Strength 2 - Shall be supplied in a commercially available vial. One package, containing 10 vials, as specified, constitutes one unit.

For Strength 3 - Shall be supplied in a vial with a rated capacity of not less than 100 ml, accompanied by a suitable hanging device which allows the bottle to be hung for intermittent intravenous administration. One package containing one bottle and one hanging device, as specified, constitutes one unit.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580 to the maximum extent practical.
