INTERIM COMMERCIAL ITEM DESCRIPTION

OATMEAL, COLLOIDAL CONCENTRATE

The General Services Administration has authorized the use of this Interim Commercial Item Description which was developed by the Defense Personnel Support Center, Directorate of Medical Materiel, DPSC-ATT, 2800 South 20th Street, Philadelphia, PA 19101, based upon currently available technical information.

This Interim Commercial Item Description covers Oatmeal, Colloidal Concentrate for dermatological use.

Salient Characteristics:

Shall be Oatmeal, Colloidal Concentrate.

Shall be a fine, dried powder consisting of a concentrated gum-like fraction of dehulled oat.

Shall be a pure oat product free of all extraneous matter and prepared employing a method which will retard insect infestation.

Shall produce a colloidal dispersion which is uniform and free of aggregates and foreign material when tested as follows:

Add 25 grams of product to 500 ml of tap water at 45° C ± 2° C. Stir with a magnetic stirring bar until a uniform mixture is obtained. Test for abrasive material by rubbing a small amount of the mixture on the wrist. There shall be no foreign material present. Allow the colloidal dispersion to stand undisturbed for 15 minutes. Examine the settled mixture to determine if it is uniform, free of aggregates and foreign material. There shall be no lumps or foreign matter.

Not more than 6 months shall have elapsed form the date of manufacture of the product to the date of delivery to the Government.

FSC 6505

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Workmanship. Product shall be free from defects which detract from its appearance or impair its serviceability.

Unit. Package (PG). Shall be supplied 16 ounces (453.6 grams) as specified, in a suitable sift-proof, moisture-proof bag which may be reclosed to prevent spillage. The bag and a measuring device (1 scoop approximately equal to 2 tablespoonfuls) shall be placed in a suitable enclosing carton, and constitutes one unit.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.
