DDD-R-30
AMENDMENT-2
APRIL 15, 1959

SUPERSEDING
INTERIM AMENDMENT-1
REVISION-1
MAY 1, 1958

FEDERAL SPECIFICATION

RAGS, WIPING, COTTON

This amendment, which forms a part of Federal Specification DDD-R-30, dated September 20, 1956, was approved by the Commissioner, Federal Supply Service, General Services Administration, for the use of all Federal agencies.

Page 1, paragraph 1.2.1: Delete and substitute:

1.2.1 *Classes and grades.*—Cotton wiping rags shall be of the following classes and grades, as specified (see 6.1). Grades are applicable to class 2 rags only:

Class 1.—Unused fabrics.

Class 2.—Reclaimed fabrics.

Grade A.—2.0 to 6.0 ounces per square yard (white only) (see 6.6).

Grade B.—2.0 to 12.0 ounces per square yard.

Page 1, paragraph 1.2.2, fourth and fifth lines: Delete and substitute:

White (see 6.5).

Mixed colors (may include white rags).

Page 1, paragraph 2.1: Following the listing of Federal Specifications, add the following:

Federal Standards:

Fed. Std. No. 102 — Preservation, Packaging, and Packing Levels.

Fed. Std. No. 123 — Marking for Domestic Shipment (Civilian Agencies).

Page 2, paragraph 3.1.2: Delete and substitute:

3.1.2 *Class 2, reclaimed fabrics.*—Class 2 wiping rags shall be soft, absorbent cotton fabrics consisting of fabrics reclaimed from household articles and garments, none of which have been previously used for wiping rag purposes. Wiping rags shall be free from alkali. Rags of the following grades having the following characteristics shall be considered defective:

Grades A and B:

(*a*) Rags having stains which retard absorbency (see 3.4) or which cover more than one-tenth of the area of the rag.

(*b*) Rags containing dirt, dust, abrasives, and other clearly noticeable nonfibrous materials or an aggregate of more than one square inch of hardened surface.

(*c*) Rags so badly worn or tendered as to be unsuited for the intended use.

(*d*) Tattered parts less than 3 inches in width and 6 inches or more long. (A tatter is a fabric part protruding from the body of the fabric.) Edges frayed or raveled continuously or intermittently to a depth of over 2 inches.

Check the source to verify that this is the current version before use.

(*e*) Rags made from fabrics of which the crotch, cuffs, cuff hems and hems over 1 inch in width, pockets, collars, waistband, flat felled seams and reinforcements (tapes, bindings, weltings, pipings, plaitings, buttonhole reinforcements) have not been completely eliminated. Patches over 4 square inches in area.

(*f*) Rags made of unopened sleeves, unopened legs, and unopened tubular fabrics.

(*g*) Rags containing buttons, hooks, eyes, pins, or any other metallic or plastic fittings.

(*h*) Rags made of U. S. flags, flags of other nations, or remnants thereof.

Grade A (only):

(*a*) Rags made of mesh fabrics such as laces, scrims, and nettings.

Grade B (only):

(*a*) Rags made of mesh fabric having an opening larger than ⅛-inch square or made of mesh fabric weighing less than three ounces per square yard. (Cotton lace, nettings, and scrim are considered in these categories.)

Page 3, paragraph 3.2.2.1: Delete and substitute:

3.2.2.1 The width and length dimensions specified in 3.2.2 are defined as follows: The minimum width of a rag shall be the measurement between the two closest opposing points on the perimeter of a rag. The maximum length shall be the distance between the most distant points on the edges of a rag. When rags are nearly rectangular, the long side shall be considered the maximum length.

Page 3, paragraph 4.1.2.1: Delete and substitute:

4.1.2.1 *Class 1, unused fabrics.*—The acceptable quality level shall be 4.0 percent.

Page 3, paragraph 4.1.2.2: Delete and substitute:

4.1.2.2 *Class 2, reclaimed fabrics.*—Grades A and B wiping rags shall have an acceptable quality level of 2.5 percent for major defects and 6.5 percent for major and minor defects combined (see 4.2).

Page 4, paragraph 4.2: Delete and substitute:

4.2 **Visual and dimensional inspection.**—The pounds of rags selected in accordance with table I shall be visually and dimensionally inspected by the Government inspector to verify compliance with this specification. If the total weight of nonconforming rags in the sample exceeds the applicable acceptance number (in pounds), the entire lot shall be rejected. The weight of class 2, grades A and B nonconforming rags shall be divided into the following major and minor defect classifications:

Grades A and B:

Major defects:

(*a*) Rags not made of cotton.

(*b*) Rags having the defects specified in 3.1.2(*a*), (*b*), (*c*), and (*h*).

(*c*) Rags not within the dimensions specified in 3.2.2.

(*d*) Rags not within the weight requirements of 3.3.

(*e*) Rags not having the absorbency specified in 3.4.

Minor defects:

(*a*) Rags having the defects specified in 3.1.2 (*d*), (*e*), (*f*), and (*g*).

(*b*) Rags having objectionable odor.

Grade A (only):

Major defects:

(*a*) Rags made of mesh fabrics such as laces, scrims, and nettings (3.1.2).

Check the source to verify that this is the current version before use.

Grade B (only):

Major defects:

(*a*) Rags made of mesh fabric having an opening larger than ⅛-inch square or made of mesh fabric weighing less than three ounces per square yard. (Cotton lace, nettings, and scrim are considered in these categories.)

Page 6, paragraph 5.2.2: Delete and substitute:

5.2.2 *For civil agency purchase.*—In addition to marking herein and any special marking specified in the contract or order, each shipping container shall be marked in accordance with Federal Standard No. 123.

Page 7, paragraph 6.1 (*b*): Delete and substitute:

(*b*) Class and grade required (see 1.2.1).

Page 7, paragraph 6.3: Delete and substitute:

6.3 Transportation description. — The transportation description applicable to this item is:

Cloths or rags, wiping.
In packages not machine pressed.
In machine pressed bales or machine pressed in boxes.[1]

[1] Preferred method of shipment to obtain lowest transportation charge.

Carload minimum weight 24,000 pounds, subject to Rule 34, Uniform Freight Classification.
Motor Volume minimum weight 24,000 pounds.

Page 7, paragraph 6.4: Add the following at end of paragraph: "(for Civil agencies only)".

Page 7, following paragraph 6.4, add the following:

6.5 Interpretation.—The word "white" as contained in 1.2.2 of this specification shall be interpreted to mean the following type rags: Unbleached (greige) rags that were in the greige state and have been partially bleached, fully bleached, and colored rags which have had the dye color completely removed (known as stripped rags) except that evidence of a dye color on seams of stripped rags will be acceptable.

6.6 Intended use. — It is suggested that class 2, grade A rags be ordered by Government agencies only when better quality rags are required.
