Add the following paragraph:

"6.7 Formula approval. Approval of formulation is the responsibility of the U.S. Army Natick Research and Development Center, Natick, MA and is based on extensive tests, including those for toxicity which are not set forth in this specification. Because of the time necessary to conduct full evaluation (approximately 6 months), only those chemical treatments which have been previously submitted to and evaluated by Natick Research and Development Center will be considered for approval and use in the current procurement. Information pertaining to approval of new treatments should be obtained from the U.S. Army Natick Research and Development Center. The list of approved treatments may be obtained from the contracting activity."
