CCC-C-1
Interim Amendment-2
January 28, 1959
SUPERSEDING
AMENDMENT-1
June 20, 1958

INTERIM AMENDMENT TO

FEDERAL SPECIFICATION

CLOTH, COTTON, SHEETING (LAUNDRY COVER CLOTH)

This Interim Amendment was developed by General Services Administration, Federal Supply Service, Washington 25, D. C. The primary purpose of this revision is to change requirements for length of bolts or rolls, yarns, and nonfibrous materials. Its use is authorized by the General Services Administration for procurement purposes by all Federal agencies as a part of Federal Specification CCC-C-435, dated May 24, 1957. This amendment will be superseded by a regular amendment to CCC-C-435.

Page 2, paragraph 3.1, last sentence: Delete and substitute: "The cotton shall be thoroughly cleaned, carded, drawn, evenly spun in singles or twisted into a ply yarn for both the warp or filling."

Page 2, paragraph 3.3, table I: Under column headed "Yarns per inch (minimum)", delete "(minimum)", and delete "2 ply".

Following table I: Insert the following paragraph: "3.3.1 Tolerance.- A minus tolerance of 6 yarns per inch in either the warp or filling will be permitted providing there is a total of not less than 114 yarns per inch."

Page 2, paragraph 3.6, second line: Delete "5.0" and substitute "12.0".

Page 2, paragraph 3.7: Delete and substitute: "3.7 Length.- The cloth shall be furnished in either bolts or rolls and unless otherwise specified shall be in one continuous piece of 50 ± 5 yards in length."
