COMMERCIAL ITEM DESCRIPTION

NITROFURANTOIN ORAL SUSPENSION, USP

The General Services Administration has authorized the use of this Commercial Item Description as a replacement for Military Specification MIL-N-37645 which is cancelled.

Salient Characteristics:

Shall be palatable Nitrofurantoin Oral Suspension, USP.

Shall be in accordance with the requirements of the USP.

Shall contain 5 mg of Nitrofurantoin per ml of suspension, within the applicable assay limits for the suspension.

All ingredients entering into the manufacture of the suspension shall be of a pharmaceutical grade.

Workmanship. The suspension shall be free from defects which detract from its appearance or impair its serviceability.

Unit. Bottle (BT). Shall be supplied 16 fluid ounces (473 ml) in a commercially available bottle. One bottle, as specified, constitutes one unit.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

AMSC\NA FSC 6505

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Federal Acquisition Regulation Subpart 23.4 to the maximum extent practical.

Preservation, packaging, packing, labeling and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.

Ordering data. Intermediate/exterior package quantities and labeling and marking must be specified in the contract and/or order.
