7. APPLICATION / INTERRELATIONSHIP

7.1 This Data Item Description (DID) contains the format and content preparation instructions for the data product generated by the specific and discrete task requirement as delineated in the contract.

7.2 This DID is applicable to all Air Force contracts for inspection of boilers and pressure vessels.

8. APPROVAL LIMITATION	9a. APPLICABLE FORMS	9b. AMSC NUMBER
		F4148

10. PREPARATION INSTRUCTIONS

10.1 Format. Figures 1 through 4 contain sample formats for the boiler and pressure vessel reports.

10.2 Content. The report shall contain the following sections:

10.2.1 Inspection Orders Issued Report. The report shall specify the number of inspection orders issued during the reporting period. For each Major Command (MAJCOM) and base, the report shall include the National Board number, building number, manufacturer, type of boiler (water tube, fire tube, or high temperature hot water) or pressure vessel, fuel type, and year built. This report (see Figure 1) will confirm information on the inspection requests received from the bases.

10.2.2 Monthly Activity Report. This report shall specify the Command, base, National Board number, actual type of inspection completed, date inspection report sent to the Command, and whether recommendations were made concerning the inspection. Reports shall be grouped by Command and base (see Figure 2).

10.2.3 Overdue Report. This report shall specify which inspections were not completed on schedule. Report will include Command, base, National Board number, building number, boiler number, scheduled date, scheduled type of inspection, and status. Reports shall be grouped by Command and base (see Figure 3).

10.2.4 Funds Management Report. This report shall list the scheduled type of inspection, total number of each type of inspection, dollar value of these inspections, and dollars left in the contract by month. Figure 4 is a sample Funds Management report.

10.2.5 Boiler and Pressure Vessel Reports. Separate reports are necessary for boilers and pressure vessels.
