DATA ITEM DESCRIPTION

Form Approved
OMB No 0704-0188

1 TITLE	2 IDENTIFICATION NUMBER
Innovations Report	DI-MISC-80406

3 DESCRIPTION / PURPOSE

3.1 The Innovations Report identifies innovations having potential application or utility in applications different from the specific applications for which originated.

3.2 This report provides synoptic, unclassified, non-proprietary, non-trade secret information on innovations.

4 APPROVAL DATE (YYMMDD)	5 OFFICE OF PRIMARY RESPONSIBILITY (OPR)	6a DTIC APPLICABLE	6b GIDEP APPLICABLE
870810	A/DASD-EM		

7 APPLICATION / INTERRELATIONSHIP

7.1 This Data Item Description (DID) contains the format and content preparation instructions for the data product generated by the specific and discrete task requirement as delineated in the contract.

7.2 This DID is related to DI-MISC-80407, "Innovations Certification".

8 APPROVAL LIMITATION	9a APPLICABLE FORMS	9b AMSC NUMBER
		A4174

10 PREPARATION INSTRUCTIONS

10.1 General. An innovation is any new idea, method, process, technique, procedure, material, component, or device that has potential or apparent utility in application(s) different from the specific application(s) for which it was originated and is either a more effective means of accomplishing an objective or constitutes an advance in the state of the art to include inventions.

10.2 Format. The Innovations Report shall be typewritten on 8 1/2 by 11 inch white bond paper in the contractor's format. Unless otherwise approved by the Government, the contractor's initially selected format shall be used throughout the duration of the contract.

10.3 Content. The Innovations Report content shall not disclose classified information and shall not disclose trade secrets or any other information which can be construed to be proprietary. The Innovations Report content shall consist of the following:

a. TITLE: A short meaningful title identifying the specific nature of the innovation.

b. GRAPHICS: Any illustration(s) which will aid in understanding the nature, function, or application of the innovation.

Check the source to verify that this is the current version before use.

10. Preparation Instructions (Continued)

c. DESCRIPTION: A complete narrative description in sufficient detail to enable those having a general knowledge of the technology area to understand (in a manner sufficient to request further details) the innovation. This description shall include technical functional specifications, operational parameters, the availability status of the innovation, and other information necessary for understanding the innovation.

d. CHARACTERISTICS AND POTENTIAL APPLICATIONS: A narrative of the unique characteristics, potential applications, including commercial applications, and potential capabilities of the innovation if further developed.

e. REPORTS: A list of published reports regarding the innovation and associated technology by report title, number, date, security classification, contract number, and complete address(es) of source availability.

f. SOURCE: The point of contact for obtaining more detailed information regarding the innovation to include individual's name; office, corporation or institution; complete mailing address; telephone number including area code; and Government contract number.
