DATA ITEM DESCRIPTION

Title: Failure Analysis Summary List

Number: DI-SESS-80374A
Approval Date: 21 NOV 2006
AMSC Number: G6994
Limitation: N/A
DTIC Applicable: No
GIDEP Applicable: No
Office of Primary Responsibility: NS/I5223
Applicable Forms: N/A

Use/relationship:

The Failure Analysis Summary List is a summary of all failures that have occurred during the part testing, subassembly and equipment testing for which failure analysis reports have been prepared. The list is used as part of an overall management program to detect, isolate and correct equipment failures.

This Data Item Description (DID) contains the format and content preparation instructions for the data product generated by the specific and discrete task requirement for this data included in the contract.

This list shall be prepared from failure data collected during receiving inspection, in-process and subassembly testing and end item testing.

This DID supersedes DI-RELI-80374.

Requirements:

1. **Reference documents**. None.

2. **Format and Content.**

The Failure Analysis Summary List shall be in contractor's format and shall contain the following:

2.1. Title page that includes:

2.1.1. Report Title.

2.1.2. Equipment nomenclature.

2.1.3. Report date.

2.1.4. Security classification of the report.

2.1.5. Contract number.

Check the source to verify that this is the current version before use.

2.1.6. Name(s) and official title(s) of the prepares(s) of the report.

2.2.7. Signature of authorized company representative.

2.2. Brief introduction that includes the scope and purpose of the report.

2.3. List all failures which have occurred in part testing, subassembly testing and Assembly testing for which failure analysis reports has been prepared. The Failures shall be listed chronologically and shall clearly identify the failure Analyses that have not been completed. The following shall be included:

2.3.1. Failure Analysis Report (FAR) number.

2.3.2. FAR dash number.

2.3.3. Date of failure.

2.3.4. Part number of part that failed.

2.3.5. Subassembly name and serial number (S/N) if failure occurred in a subassembly.

2.3.6. Assembly name and S/N if failure occurred in assembly.

2.3.7. Status of FAR.

2.3.8. Date completed.

2.4. Histograms which reflects the recorded variables in 10.1.3 above.

3. END OF DI-SESS-80374A
