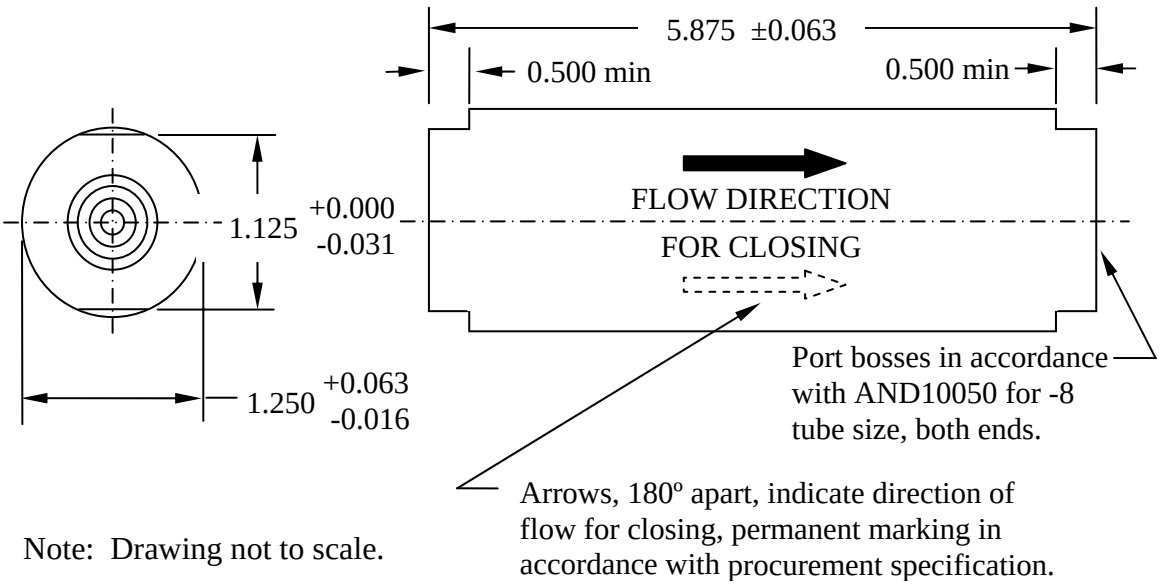
DETAIL SPECIFICATION SHEET

FUSE - HYDRAULIC QUANTITY MEASURING, CLASS 3000, TYPE II

Inactive for new design after 12 February 1996.

This specification is approved for use by all Departments and Agencies of the Department of Defense.

The requirements for acquiring the product described herein shall consist of this specification sheet, MIL-DTL-5508, and QPL-5508.



Note: Drawing not to scale.

Dash number	Tube OD (inch)	Rated volumetric capacity (cubic inches)								
		10	20	40	60	80	120	160	200	250
8	0.5	X	X	X	X	X	X	X	X	X

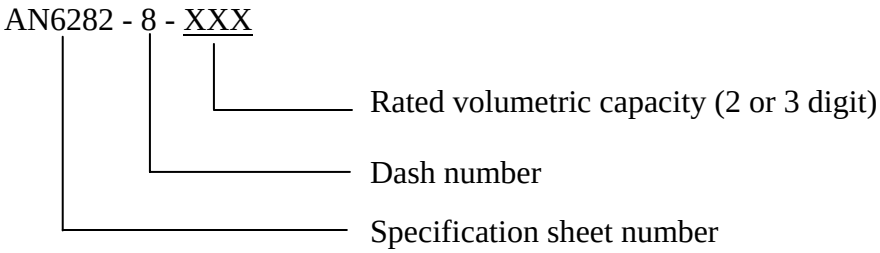
Check the source to verify that this is the current version before use.

REQUIREMENTS:

1. Part or identifying number (PIN): PINs to be used for fuses acquired to this specification sheet are created as follows:



Example: AN6282-8-20 indicates fuse, 0.5 inch OD tubing with rated capacity of 20 cubic inches.

2. Dimensions are in inches.

3. The airplane or engine manufacturer shall allow clearance for the maximum dimensions shown on this drawing for installation.

4. Type II fuse will not reset itself without reverse flow.

5. AN6282-4 and AN6282-6 have been canceled. As replacement, use AN6282-8 with adapter.

CHANGES FROM PREVIOUS ISSUE: Marginal notations are not used in this revision to identify changes with respect to the previous issue due to the extent of the changes.
