MILITARY SPECIFICATION

RANGEFINDER, FIRE CONTROL, LASER: 11743101

This Amendment forms a part of Military Specification MIL-R-48595A (AR) dated 30 June 1981, and is approved for use within the U.S. Army Armament, Munitions and Chemical Command and is available for use by all Departments and Agencies of the Department of Defense.

PAGE 3

Add the following paragraph:

"3.1.4 Interchangeability. The rangefinder shall meet all the requirements of this specification without the need for selective assembly of the units and cables. The units shall be interchangeable such that replacement of any single unit or random combination of units of the rangefinder permits the system to operate and perform to the requirements of this specification.

NOTE: The PFN current adjustment may be reset after substitution of a different Electronics Unit or Receiver-Transmitter unit to meet the system performance requirements, but shall not be further adjusted from the initial setting before, during, or after the environmental tests."

PAGE 22

Add the following paragraph:

"4.6.5 Interchangeability. The interchangeability requirements specified in 3.1.4 shall be satisfied when the rangefinder is selected as specified in 4.4.1 for First Article samples and the environmental samples."

PAGE 18

TABLE IX, Test Equipment, Item 5, Delete "23-inch minimum diameter circle," and substitute "23-inch minimum diameter circle or 23 inch minimum square,".
