MILITARY SPECIFICATION SHEET

TOPOGRAPHIC SUPPORT SYSTEM (TSS):

SURVEY SECTION, TOPOGRAPHIC

SUPPORT SET, SEMITRAILER MOUNTED

This specification sheet is approved for use by the Mobility Equipment Research and Development Command, Department of the Army, and is available for use by all Departments and Agencies of the Department of Defense.

The complete requirements for procuring the survey section described herein shall consist of this document and the latest issue of specification MIL-T-52964(ME).

1. REQUIREMENTS

1.1 Description. The survey section shall be as shown in Figure 1 and shall be equipped with the components listed in SC 6675-97-CL-E55.

1.2 Components. Components of the survey section shall be manufactured and operate in conformance with the component's technical specifications and literature.

1.3 Special provisions. Provide an antenna mount on the roof of the van to accommodate the Doppler receiver antenna.

2. TESTS

2.1 Component test. The component test procedures shall be written and conducted by the contractor to determine the component's conformance to its' technical specifications and literature. The test shall be conducted in a van enviroment. The component test shall be conducted twice; once prior to any Section 4 testing and once after completing all testing as specified in Section 4 of the general specification.

2.1.1 Preparation for operation and movement. The analytical photogrammetric positioning system shall be permanently mounted on the counter top in the section.

2.1.2 Test items. The following components of the survey section shall be tested:

Analytical Photogrammetric Positioning System
Doppler Survey Set

Nonconformance to 1.2 shall constitute failure of this test.

3. NOTES

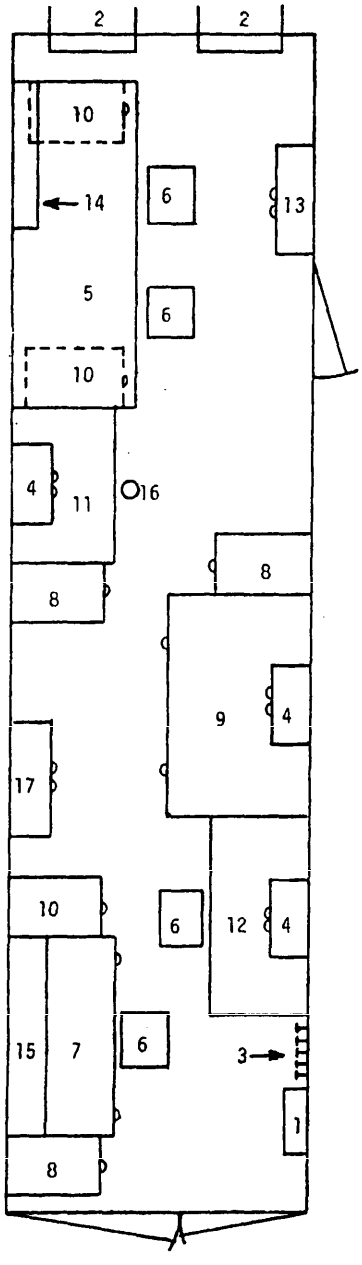

3.1 Intended use. The survey section (with assigned personnel) will establish new and intensify existing basic control networks. They will utilize both conventional survey and the newer point positioning concepts to determine the position, elevation, azimuth for required points be determined at the accuracies required for accomplishing the theater geodetic, topographic and artillery or missile fire missions. The section will also provide complete positional support to all units of the Topographic Support System (TSS) as required.

STANDARDIZATION DOCUMENT IMPROVEMENT PROPOSAL

OMB Approval
No. 22-R255

INSTRUCTIONS: The purpose of this form is to solicit beneficial comments which will help achieve procurement of suitable products at reasonable cost and minimum delay, or will otherwise enhance use of the document. DoD contractors, government activities, or manufacturers/vendors who are prospective suppliers of the product are invited to submit comments to the government. Fold on lines on reverse side, staple in corner, and send to preparing activity. Comments submitted on this form do not constitute or imply authorization to waive any portion of the referenced document(s) or to amend contractual requirements. Attach any pertinent data which may be of use in improving this document. If there are additional papers, attach to form and place both in an envelope addressed to preparing activity.
