COMMERCIAL ITEM DESCRIPTION

OXACILLIN SODIUM FOR INJECTION, USP

The General Services Administration has authorized the use of this Commercial Item Description as a replacement for Military Specification MIL-O-37324A which is cancelled.

Salient Characteristics:

Shall be Oxacillin Sodium for Injection, USP.

Shall be in accordance with the requirements of the USP.

All ingredients shall be of pharmaceutical grade.

For Strength 1, shall contain a quantity of Oxacillin Sodium equivalent to 0.5 Gram of Oxacillin, within the applicable assay limits for the injection.

For Strength 2, shall contain a quantity of Oxacillin Sodium equivalent to 1.0 Gram of Oxacillin, within the applicable assay limits for the injection.

For Strength 3, shall contain a quantity of Oxacillin Sodium equivalent to 2 Grams of Oxacillin, within the applicable assay limits for the injection.

For Strength 4, shall contain a quantity of Oxacillin Sodium equivalent to 4 Grams of Oxacillin, within the applicable assay limits for the injection.

For Strength 5, shall contain a quantity of Oxacillin Sodium equivalent to 10 Grams of Oxacillin, within the applicable assay limits for the injection.

For Strength 2, Type I, shall be provided in a commercially available vial.

For Strength 2, Type II, shall be provided in an oversized bottle.

AMSC/NA FSC 6505

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Workmanship. The Product shall be free from defects which detract from its appearance or impair its serviceability.

Unit.

For Strength 1 & Strength 2, Type I, Size 2 - Package (PG). Shall be supplied in a commercially available vial. One package containing 10 vials, as specified, constitutes one unit.

For Strength 2, Type I, Size I - Vial (VI). One vial, as specified, constitutes one unit.

For Strength 2, Type II, Strength 3 and Strength 5 - Package (PG). Shall be supplied in a commercially available bottle with a rated capacity of not less than 100 ml. Bottle shall be supplied with a suitable hanging device which allows the bottle to be hung for intermittent intravenous administration. One package containing ten individual packages, each containing one bottle and one hanging device, as specified, constitutes one unit.

For Strength 4 - Package (PG). Shall be supplied in a 50 ml commercially available vial. One package containing 10 vials, as specified, constitutes one unit.

For Strength 5 - Package (PG). Shall be supplied in a commercially available oversized vial with a rated capacity of not less than 100 ml. Vial shall be supplied with a suitable hanging device which allows the vial to be hung for pharmacy intravenous admixture programs. One package containing ten vials with hanging devices, as specified, constitutes one unit.

Strength 2, Type II, Strength 3, and Strength 5, bottle closures shall be compatible with the stocklisted intravenous sets.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580, as amended, and as implemented by Federal Acquisition Regulation Subpart 23.4 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.

INSTRUCTIONS: In a continuing effort to make our standardization documents better, the DoD provides this form for use in submitting comments and suggestions for improvements. All users of military standardization documents are invited to provide suggestions. This form may be detached, folded along the lines indicated, taped along the loose edge *(DO NOT STAPLE)*, and mailed. In block 5, be as specific as possible about particular problem areas such as wording which required interpretation, was too rigid, restrictive, loose, ambiguous, or was incompatible, and give proposed wording changes which would alleviate the problems. Enter in block 6 any remarks not related to a specific paragraph of the document. If block 7 is filled out, an acknowledgement will be mailed to you within 30 days to let you know that your comments were received and are being considered.

NOTE. This form may not be used to request copies of documents, nor to request waivers, deviations, or clarification of specification requirements on current contracts. Comments submitted on this form do not constitute or imply authorization to waive any portion of the referenced document(s) or to amend contractual requirements.
