Check the source to verify that this is the current version before use.

For Strength I, the injection shall be suitable for nerve block infiltration.

For Strength II, the injection shall be suitable for caudal and epidural blocks.

For Strength IV, the injection shall be suitable for local anesthetic for dental block and infiltration injections. Shall be paraben-free.

All ingredients entering into the manufacture of the injection shall be of a pharmaceutical grade.

Workmanship. The injection shall be free from defects which detract from its appearance or impair its serviceability.

Unit.

Package (PG).

For Size 1, shall be supplied 1.8 ml in a clear Type I USP glass cartridge. One package containing 100 cartridges, as specified, constitutes one unit.

Vial (VI).

For Size 2, shall be supplied 20 ml in a commercially available multiple dose vial. One vial, as specified, constitutes one unit.

For Size 3, shall be supplied 30 ml in a commercially available single dose vial. One vial, as specified, constitutes one unit.

For Size 4, shall be supplied 50 ml in a commercially available multiple dose vial. One vial, as specified, constitutes one unit.

Contractor certification. The contractor shall certify and maintain substantiating evidence that the product offered meets the salient characteristics of this Commercial Item Description, and that the product conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Federal Acquisition Regulation Subpart 23.4 to the maximum extent practical.

Preservation, packaging, packing, labeling and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.

Ordering data. Expiration dating required, intermediate/exterior package quantities and labeling and marking must be specified in the contract and/or order.

NOTE 1: For use with 6515-01-010-8761, Syringe, Cartridge, Aspirating, Thumb Ring Handle.

NOTE 2: The following National Stock Numbers are covered by this document:
