COMMERCIAL ITEM DESCRIPTION

BINDING, SKI, ALPINE AND CROSS COUNTRY, SNOW AND ICE

TRAVERSING EQUIPMENT (SITE)

The General Service Administration has authorized the use of this commercial item description.

1. SALIENT CHARACTERISTICS

1.1 Design and construction. The ski binding shall conform to Drawing 2-10-155.

2. QUALITY ASSURANCE

2.1 Certification. The contractor shall certify, and maintain subtantiating evidence, that the product offered meets the salient characteristics and requirements of this Commercial Item Description, and that the product conforms to the producer's own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and there after as may be otherwise provided for under the provisions of the contract.

2.1.1 Visual examination. Each lot of ski bindings shall be inspected in accordance with MIL-STD-105. The inspection level shall be II. The lot size shall be expressed in units of ski bindings. The sample size shall be one ski binding. The ski bindings shall be examined for the defects listed below:

Finish omitted or not as specified; burrs, rough spots, sharp edges; any component missing or not specified type; any component fractured, split, dented, bowed, malformed, damaged, loose or corroded; markings in wrong location, incomplete, illegible, incomplete or not as specified.

Beneficial comments, recommendations, additions, deletions, clarifications, etc. and any data which may improve this document should be sent to: Commander, U.S. Army Natick Research, Development, and Engineering Center, ATTN: STRNC-ES, Natick, MA 01760-5014.

AMSC N/A FSC 8465

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Check the source to verify that this is the current version before use.

2.1.2 Dimensional examination. The end items shall be examined without damaging or disassembling the end items as specified on the drawing. Only those dimensions that can be evaluated shall be examined. Any dimension not within the specified tolerances shall be classified as a defect. The lot size shall be expressed in units of ski bindings. The sample unit shall be one ski binding. The inspection level shall be S-3.

3. PACKAGING

3.1 Packaging. The ski bindings shall be packaged as specified on Drawing 2-10-155.

3.2 Marking. Marking shall be in accordance with MIL-STD-129.

4. NOTES

4.1 Intended use. The ski binding is for use in both alpine and cross country military skiing.

4.2 Ordering data.

a. Title, number, and date of this document.

4.3 The acceptable quality levels (AQL's) are recommended as follows:

a. For visual examination - 4.0
b. For dimensional examination - 2.5
