COMMERCIAL ITEM DESCRIPTION

PLATE, COUNTING, BACTERIOLOGICAL

The General Services Administration has authorized the use of this commercial item description as a replacement for Military Specification MIL-C-37760 which will be cancelled.

This commercial item description covers a Wolffhuegel type counting plate suitable for counting bacterial colonies.

Salient characteristics.

Shall be a Wolffhuegel type counting plate suitable for use with a bacterial counting apparatus.

The plate shall be fabricated of glass, 3.2 millimeters (mm) thick, and shall be square with sides 114 mm in length. The plate shall have a lined area with 100 mm sides parallel to the sides of the plate. The lined area shall contain 100 squares with 10mm sides. Each of the diagonal squares shall be subdivided into nine equal squares. The center of the lined area shall not be more than 1 mm from the center of the plate. The lines shall be etched or silkscreened and have a nominal width of 0.25 mm.

Workmanship. The plate shall be free from defects which detract from its appearance or impair its serviceability.

Unit. Each (EA). One plate counting, as specified, constitutes one unit.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Metric Products. Products manufactured to metric dimensions will be considered on an equal basis with those manufactured using inch-pound units, providing they fall within the tolerances specified using conversion tables contained in the latest revision of Federal Standard No. 376, and all other requirements of this document are met. If a product is manufactured to metric dimensions and those dimensions exceed the tolerances specified in the inch-pound units, a request should be made to the contracting officer to determine if the product is acceptable. The contracting officer has the option of accepting or rejecting the product.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U. S. Food and Drug Administration to be under its jurisdiction, the offeror/ contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its contractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580, as amended, and as implemented by Federal Acquisition Regulation Subpart 23.4 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.
