COMMERCIAL ITEM DESCRIPTION

JAR, PIPET

The General Services Administration has authorized the use of this commercial item description as a replacement for Military Specification MIL-J-36511 which will be cancelled.

This commercial item description covers the requirements for a polyethylene pipet jar suitable for use in washing pipets.

Salient characteristics.

Shall be a polyethylene pipet jar capable of holding a 4 (diameter) by 21 (height) inches pipet basket. Shall consist of a polyethylene cylinder with either a integral flanged base or a removable flanged base. Shall have the following nominal dimensions:

Height	18-21 inches
Outside diameter	6.5 inches
Flange diameter	10.0 inches

The removable base shall be capable of holding the cylinder. The base shall be so constructed as to provide stability to the cylinder. Shall hold the bottom end of the cylinder snug and firm. The cylinder shall set upright within the base and shall be perpendicular to the bottom of the base.

The rim at the open end of the pipet jar shall have a smooth even finish. Shall not rock when placed on a plane smooth surface.

Workmanship. The pipet jar shall be free from defects which detract from its appearance or impair its serviceability.

Unit. Each (EA). One pipet jar, as specified, constitutes one unit.

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Metric Products. Products manufactured to metric dimensions will be considered on an equal basis with those manufactured using inch-pound units, providing they fall within the tolerances specified using conversion tables contained in the latest revision of Federal Standard No. 376, and all other requirements of this document are met. If a product is manufactured to metric dimensions and those dimensions exceed the tolerances specified in the inch-pound units, a request should be made to the contracting officer to determine if the product is acceptable. The contracting officer has the option of accepting or rejecting the product.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U. S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580, as amended, and as implemented by Federal Acquisition Regulation Subpart 23.4 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.
