DATA ITEM DESCRIPTION

Title: TECHNICAL DIRECTIVE COMPLIANCE REPORTS

Number: DI-MGMT-80224B **Approval Date: 20111221**
AMSC Number: N9238 **Limitation: N/A**
DTIC Applicable: N/A **GIDEP Applicable: N/A**
Office of Primary Responsibility: AS/AIR-6.8.5.2
Applicable Forms: N/A

Use/relationship: The Technical Directive Compliance Reports will be used to obtain the data required to report the status of compliance with Naval Air Systems Command (NAVAIR) Technical Directives.

The contractor reports to the government all technical directive compliances accomplished on government owned equipment in the custody of the contractor and approved by the government for the incorporation in the article(s) of the contract by submitting a technical directive compliance report as soon as possible after completion of actions directed in the technical directive.

This DID contains the format, content, and preparation instructions for the data product generated by the specific task requirement as delineated in the contract.

This DID supersedes DI-MGMT-80224A.

Requirements:

1. Reference documents. None.

2. Format. Contractor format is acceptable.

3. Content. The Technical Directive Compliance Report (TDCR) shall include the status of all Technical Directive (TD) compliances.

3.1 TDCR Data Elements. The TDCR shall contain the following data:

a. Type Equipment Code – Enter a four-character code, which identifies the type equipment being modified (example: F-14A = AFWA)

b. Serial Number – Enter six characters which identifies the specific equipment being modified. For Serial Numbers less than six characters precede with zeroes. For Serial Numbers greater than six characters, use last six characters.

c. TD Code – Enter two digits corresponding to the TD type (See Figure 1) (example: Airframe Change = 50).

d. Basic Number – Enter a four digit number identifying a specific TD (example: TD 107 = 0107).

e. Interim – Enter I, if interim TD, otherwise leave blank.

Check the source to verify that this is the current version before use.

f. Revision – Enter alphabetic character identifying the TD if revision, otherwise leave blank.

g. Amendment – Enter numeric character identifying the TD if amendment, otherwise leave blank.

h. TD Part Number – Enter two characters used to identify the TD, if TD was issued as parts, otherwise leave blank.

i. Kit Number – Enter two characters identifying the kit installed (example: A1). If no kit is required, enter 00.

j. Incorporating Activity – Enter six characters identifying the activity incorporating the TD.

k. Incorporation Date – Enter four digits in the form MMYY (example: April 2003 = 0403).

l. Work Unit Code – Enter up to seven alphanumeric characters.

m. Comply Status – Enter C (for current compliance), P (for previous compliance), or D (not applicable).

n. Manhours – Enter four numeric characters. If less than four characters, precede with zeroes (example: 10 = 0010).

o. Maintenance Level – Enter 5 (Contractor Incorporated) or 6 (Contractor Mod Team).

The following data elements are required when reporting a component TD (example: Avionics)

p. Component Serial Number – Enter up to 10 alphanumeric characters identifying the component being modified.

q. Inducted CAGE – Enter 5 characters.

r. Inducted Part Number – Enter up to 15 characters, identifying the inducted part.

s. Produced CAGE – Enter 5 characters, if applicable.

t. Produced Part Number – Enter up to 15 characters, identifying the produced part number, when a TD caused a part number change, if applicable.

4.0 End of DI-MGMT-80224B.
