MATERIAL: The bottles shall be molded of polyethylene plastic, natural color.

DESIGN: Bottles shall be conventional cylindrical shape with integrally molded threaded necks to accomodate screw closures. The larger sizes have handles for easy carrying. The dispensing mechanism shall afford positive, easy control with leakproof operation.

NOTES: 1. Items differing from this military standard by minor variations in design or dimensions are considered standard under this document, provided such variations do not affect performance and are not in conflict with the material requirements as specified herein.

APPROVED 12 FEB 1982 REVISED

USER ACTIVITIES:

REVIEWER ACTIVITIES: ARMY - MD
NAVY - OS
AIR FORCE - 03

This military standard is approved for use by all Departments and Agencies of the Department of Defense. Selection for all new engineering and design applications and for repetitive use shall be made from this document.
