FED. SUP. CLASS
4730

NOTES:

1. MATERIAL: Steel, carbon in accordance with procurement specification.
Steel, corrosion-resisting in accordance with procurement specification.

2. PROTECTIVE COATING: Cadmium plated in accordance with procurement specification.
Zinc plated in accordance with procurement specification.
Phosphate coating in accordance with procurement specification.
Passivation treatment in accordance with procurement specification.

3. DIMENSION AND TOLERANCES: Dimensions and tolerances not shown shall be in accordance with the SAE Standard for Flareless Tube Fittings (SAE J514).

4. THREADS: Threads shall be in accordance with Screw Thread Standards for Federal Services, FED-STD-H28.

(E) 5. PART NUMBER: The MS part number consists of the MS number, plus the dash number and (for complete assembly) the applicable MS51825 sleeve style designator.

A. For complete assembly (with nuts and sleeves), cadmium plated, use the MS number, plus the assembly dash number and the sleeve style designator. Example: MS51814-1A or MS51814-1B.

B. For the body only, cadmium plated, use the MS number and the body dash number. Example: MS51814-21.

C. For zinc coating add "Z" and (for complete assembly) the sleeve style designator to the dash number. Example: MS51814-1ZA or MS51814-1ZB or MS51814-21Z.

D. For phosphate coating add "P" and (for complete assembly) the sleeve style designator to the dash number. Example: MS51814-1PA or MS51814-1PB or MS51814-21P.

E. For corrosion-resisting steel add "SS" and (for complete assembly) the sleeve style designator to the dash number. Example: MS51814-1SSA or MS51814-1SSB or MS51814-21SS.

6. For design feature purposes, this standard takes precedence over procurement documents referenced herein.

7. Reference documents shall be of the issue in effect on date of invitations for bid.

8. The illustration is for identification and is not intended to restrict designs or shapes not dimensioned.

* 9. After 22 NOV 1974 , bodies will be used for production only and SHALL NOT be stocked for maintenance. Existing stock of bodies should be used until depleted.

10. CAUTION: The following data is furnished for the purpose of new design only and is not intended to imply interchangeability.

(E) MS51814 will replace MS39201 for new design after approval date on this document. Table II below gives reference data for coordination of equivalent tube sizes, in both compression and hydraulic type nipples. Assembly replacement is authorized.

TABLE II (FOR INFORMATION ONLY)
ASSEMBLY EQUIVALENCY

PART NUMBER		PART NUMBER		PART NUMBER	
COMPRESSION	HYDRAULIC	COMPRESSION	HYDRAULIC	COMPRESSION	HYDRAULIC
