# MILITARY SPECIFICATION
# CARTRIDGE, CALIBER .30, BALL, FRANGIBLE, M22

This amendment forms a part of Military Specification MIL-C-60865(MU) dated 19 April 1968.

Paragraph 4.3.2.1: Under Table I, , delete footnote 2/ and substitute:

"2/ Each light or heavy weight cartridge shall be disassembled and the propellant weighed. Any such cartridge containing less than 6 or more than 18 grains of propellant shall be classed as a critical defect. Each lightweight cartridge found to contain 6 or more grains of propellant shall be counted as a major defect. Each heavyweight cartridge found to contain 18 or less grains of propellant shall be counted as a major defect."
