DETAIL SPECIFICATION

MOUNTING ADAPTER ASSEMBLY, AIRPORT MARKER LIGHT

Inactive for new design after 11 August 1992

This specification is approved for use by all Departments and Agencies of the Department of Defense.

1. Scope

1.1 Scope. This specification covers a mounting adapter assembly to mount a marker light fixture on a stake or mast.

2. APPLICABLE DOCUMENTS

2.1 General. The documents listed in this section are specified in section 3, 4, or 5 of this standard. This section does not include documents cited in other sections of this standard or recommended for additional information or as examples. While every effort has been made to ensure the completeness of this list, document users are cautioned that they must meet all specified requirements of documents cited in section 3, 4, or 5 of this standard, whether or not they are listed.

2.2 Government documents.

2.2.1 Specifications, standards, and handbooks. The following specifications and standards form a part of this document to the extent specified herein. Unless otherwise specified, the issues of these documents are those cited in the solicitation or contract.

DEPARTMENT OF DEFENSE STANDARDS

MIL-STD-130 Identification Marking of US Military Property

(Copies of these documents are available online at http://assist.daps.dla.mil/quicksearch/ or from the Standardization Document Order Desk, 700 Robbins Avenue, Building 4D, Philadelphia, PA 19111-5094.)

Comments, suggestions, or questions on this document should be addressed to Defense Supply Center Philadelphia, ATTN: DSCP-NASA, 700 Robbins Avenue, Philadelphia, PA 19111-5096 or email to dscpg&inspecomments@dla.mil. Since contact information can change, you may want to verify the currency of this address information using the ASSIST Online database at http://assist.daps.dla.mil.

2.2.2 Other Government documents, drawings, and publications. The following other Government documents, drawings, and publications form a part of this document to the extent specified herein. Unless otherwise specified, the issues of these documents are those cited in the solicitation or contract.

CECOM LR CENTER

13217E7593 Mounting Adapter Assembly Airport Marker Light

(Copies of this document required by contractors in connection with specific procurement functions should be obtained from the procuring activity or as directed by the contracting officer.)

2.3 Non-Government publications. The following documents form a part of this specification to the extent specified herein. Unless otherwise specified, the issues of these documents are those cited in the solicitation or contract.

AMERICAN SOCIETY FOR QUALITY (ASQ)

ASQ Z1.4 Sampling Procedures and Tables for Inspection by Attributes

(Copies of this document are available from www.asq.org or the American Society for Quality, 611 East Wisconsin Avenue, Milwaukee, WI 53202.)

2.4 Order of precedence. In the event of a conflict between the text of this document and the reference cited herein, the text of this document takes precedence. Nothing in this document, however, supersedes applicable laws and regulations unless a specific exemption has been obtained.

3. REQUIREMENTS

3.1 Description. The mounting adapter assembly shall be in accordance with Top Assembly 3217E7593 and as specified herein.

3.1.1 Drawings. The drawings forming a part of this specification are end product drawings. No deviations from the prescribed dimensions or tolerances is permissible without prior approval of the contracting officer. Where tolerances could cumulatively result in incorrect fits, the contractor shall provide tolerances within those prescribed on the drawings to insure correct fit, assembly, and operation of the mounting adapter. Any data (e.g. shop drawings, layouts, flow sheets, processing procedures, etc.) prepared by the contractor or obtained from a vendor to support fabrication and manufacture of the production item shall be made available, upon request, for inspection by the contracting officer or his designated representative.

3.2 Material. Material shall be as specified herein and on the applicable drawings. Materials not specified shall be selected by the contractor and shall be subject to all provisions of this specification (see 6.3).

3.3 Identification marking. Each mounting adapter assembly shall be identified in accordance with MIL-STD-130, method optional.

3.4 Workmanship. The mounting adapters shall be free from defects or imperfections that might affect their serviceability or appearance. External surfaces shall be free of burrs, sharp edges and corners are required, or where they are not detrimental to safety.

4. VERIFICATION

4.1 Component and material inspection. Components and materials shall be inspected in accordance with all the requirements specified herein and in applicable referenced documents.

4.2 Classification of inspections. The inspection requirements specified herein are classified as follow: Conformance inspection (see 4.3).

4.3 Conformance inspection.

4.3.1 Sampling. Sampling for examination and inspection procedures shall be in accordance with ASQ Z1.4, Inspection Level I. Unless otherwise specified, the Acceptable Quality Levels (AQLs) listed in this section shall be used to established the sample size, however, the acceptance number shall be zero.

4.3.1.1 Examination. Mounting adapters selected in accordance with 4.3.1 shall be examined for the characteristics listed in Table 1. AQL shall be 2.5 percent defective for major defects and 4.0 percent defective for minor defects.

TABLE 1. Examination Schedule.

Number	Characteristic	Requirement Paragraph
Critical	None defined	
Major		
101	Dimensions that affect form, fit, or function.	3.1
102	Material not as specified.	3.2
Minor		
201	Dimensions that do not affect form, fit, or function.	3.1
202	Identification markings not in accordance with MIL-STD-130.	3.3
203	Workmanship not as specified.	3.4

5. PACKAGING

5.1 Packaging. For acquisition purposes, the packaging requirements shall be as specified in the contract or order (see 6.2). When packaging of material is to be performed by DoD or in-house contractor personnel, these personnel need to contact the responsible packaging activity to ascertain packaging requirements. Packaging requirements are maintained by the Inventory Control Point's packaging activities within the Military Services or Defense Agency, or within the military service's system commands. Packaging data retrieval is available from the managing Military Department's or Defense Agency's automated packaging files, CD-ROM products, or by contacting the responsible packaging activity.

6. NOTES

(This section contains information of a general or explanatory nature that may be helpful, but is not mandatory.)

Source: https://assist.dla.mil -- Downloaded: 2026-10-22T21:04Z
Check the source to verify that this is the current version before use.

6.1 Intended use. The mounting adapter assembly is intended for use in mounting a marker light fixture assembly on a stake or mast.

6.2 Acquisition requirements. Acquisition documents must specify the following:

a. Title, number, and date of this specification.
b. Packaging requirements (see 5.1).

6.3 Recycled material. It is encouraged that recycled material be used when practical as long as it meets the requirements of the specification (see 3.2).

6.4 Subject term (key word) listing.

Adapters
Light fixture
Mast
Stake

6.5 Changes from previous issue. Marginal notations are not used in this revision to identify changes with respect to the previous issue due to the extensiveness of the changes.
