MIL-STD-1320C(NAVY)
Notice 1
1 March 1991

MILITARY STANDARD
TRUCKLOADING OF AMMUNITION AND HAZARDOUS MATERIALS

To: All holders of MIL-STD-1320C(NAVY)

Make the following pen and ink changes:

a. Para 3.25. Change the definition of stack to read- "Stack. Two or more layers of containers, unit loads, or associated items extending widthwise of the vehicle and one unit in length."

b. Para 5.2.2. Change note (c) to read - "The length of the trailer (40, 42, 44, 45, or 48 feet). Where a dash number sheet specifies a certain length trailer, longer trailers (not exceeding 48 feet) may be substituted."

c. Para 5.7.2.1. Change the last sentence to read - "A minimum of two straps per stack, layer, unit load, or single container load shall be used."

d. Para 5.8.1. Change the fourth sentence to read - "A minimum of two chains and load binders shall be used for each stack, layer, unit load, or single container load."

e. Para 5.10.6. Change to read - "Explosives (other than blackpowder) and such inert items that might appear to be explosive in nature to the public may only be transported on flatbed trailers if fire resistant and waterproof tarpaulins completely conceal the lading. This includes containerized items."

f. Para 5.10.7. Change the fourth sentence to read - "Each stack, layer, unit load, or single container load shall have a minimum of two tiedowns."
