MILITARY SPECIFICATION

TARGET EQUIPMENT

This specification is approved for use by all Departments and Agencies of the Department of Defense.

1. SCOPE

1.1 This specification covers target markers, target spotters, staves, staffs, flags, and streamers, of all types and sizes (see 6.1).

2. APPLICABLE DOCUMENTS

2.1 The following documents, of the issue in effect on date of invitation for bids or request for proposal, form a part of the specification to the extent specified herein.

SPECIFICATIONS

Federal

TT-I-1795 - Ink, Marking Stencil, Opaque (Porous and Non-porous surfaces).

Military

MIL-P-14232 - Parts, Equipment and Tools, for Ordnance Materiel, Packaging of.
MIL-T-45035 - Treatment, Mildew-Resistant, Non-Copper Processes, for Cotton Duck, Webbing, and Sewed Items.

STANDARDS

Military

MIL-STD-105 - Sampling Procedures and Tables for Inspection by Attributes.
MIL-STD-130 - Identification Marking of U.S. Military Property.
MIL-STD-171 - Finishing of Metal and Wood Surfaces.

DRAWINGS

Drawings applicable to the item being procured will be designated by the procuring activity.

(Copies of specifications, standards, drawings, and publications required by suppliers in connection with specific procurement functions should be obtained from the procuring activity or as directed by the contracting officer.)

3. REQUIREMENTS

3.1 Materials. Materials shall conform to the material specifications referenced on the drawings.

3.1.1 Color. Unless otherwise specified, the color of materials for textiles and pasteboard shall conform to the applicable drawing.

3.2 Dimensions. The dimensions of parts and assemblies shall conform to the applicable drawing.

3.3 Treatment, mildew-resistant. All flags and streamers shall be mildew-resistant treated in accordance with Class 1 of MIL-T-45035.

3.4 Painting.

3.4.1 Staves and staffs. Staves and staffs shall be painted in accordance with System No. 26.1 of MIL-STD-171. Color shall be specified by the procuring activity (see 6.3.1).

3.4.2 Disk, target markers. Steel disks shall be painted in accordance with System No. 20.8 of MIL-STD-171, and the color shall be as indicated on the applicable drawing (see 6.3.2).

3.5 Marking. Marking of target equipment shall conform to the applicable drawing and MIL-STD-130. Items which have been mildew-resistant treated shall be marked with the letters "MRT" (Mildew-Resistant Treatment) and the date of application. Black opaque stencil ink conforming to TT-I-1795 shall be used.

3.6 Workmanship. Target equipment shall be free from dimensional and visible defects when examined in accordance with section 4.

4. QUALITY ASSURANCE PROVISIONS

4.1 Responsibility for inspection. Unless otherwise specified in the contract or purchase order, the supplier is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract or order, the supplier may use his own

or any other facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

4.2 Inspection provisions

4.2.1 Lot formation. Unless otherwise specified, a lot shall consist of one type or kind of target equipment manufactured or packaged under essentially the same conditions.

4.2.2 Materials. The Government shall be furnished certification by the contractor that materials used in the manufacture and packaging of target equipment conform to the applicable material specification and drawing requirements.

4.2.3 Sampling.

4.2.3.1 For examination. Sampling for examination of target equipment shall be in accordance with level S4 of MIL-STD-105.

4.2.3.2 For mildew-resistance test. Sampling for mildew-resistance test of flags and streamers shall be in accordance with level S1 of MIL-STD-105.

4.2.3.3 For packaging and packing. Sampling for packaging and packing of target equipment shall be in accordance with MIL-P-14232.

4.2.3 Examination.

4.2.4.1 Target equipment. Each unit of the sample shall be examined for all the characteristics listed under the applicable portion in the classification of defects of 4.2.4.3.

4.2.4.2 Packaging and packing. Examination of packaging and packing requirements of 5.1 shall be in accordance with MIL-P-14232.

4.2.4.3 Classification of defects in accordance with MIL-STD-105.

TABLE I. Flags and streamers

Categories	Defects	Inspection method
Critical	None defined	
Major	None defined	
Minor	AQL 2.5 percent defective	
201	Nonconformance to dimensions	Scale and Visual
202	Improper assembly or missing parts	Visual
203	Nonconformance to stitching requirements	Visual
204	Nonconformance to color requirements	Visual
205	Edges not selvaged	Visual
206	Nonconformance to mildew-resistant marking requirements	Visual

TABLE II. Staves and staffs

Categories	Defects	Inspection method
Critical	None defined	
Major	None defined	
Minor	AQL 2.5 percent defective	
201	Nonconformance to dimensions	Scale and visual
202	Nonconformance to painting requirements	Visual
203	Decayed, split cross-grained or warped	Visual

TABLE III. Target spotter disks

Categories	Defects	Inspection method
Critical	None defined	
Major	None defined	
Minor	AQL 2.5 percent defective	
201	Nonconformance to dimensions	Scale and Visual
202	Nonconformance to color requirements	Visual

TABLE IV. Target spotter spindle

Categories	Defects	Inspection method
Critical	None defined	
Major	None defined	
Minor	AQL 2.5 percent defective	
201	Nonconformance to dimensions	Scale and Visual

TABLE V. Target markers

Categories	Defects	Inspection method
Critical	None defined	
Major	None defined	
Minor	AQL 2.5 percent defective	
201	Nonconformance to dimensions	Scale and Visual
202	Improper assembly or missing parts	Visual
203	Nonconformance to painting requirements	Visual

4.2.5 Tests.

4.2.5.1 Mildew resistance. Each flag or streamer of the sample shall be tested for mildew-resistance as specified in MIL-T-45035. Failure of any flag or streamer to pass this test shall be cause for rejection.

5. PREPARATION FOR DELIVERY

5.1 Preservation, packaging, packing and marking. Target material covered by this specification shall be preserved, packaged, packed and marked in accordance with the applicable packaging data sheet or in accordance with the requirements and the level of protection specified in the contract (see 6.2).

6. NOTES

6.1 This specification covers target markers, target spotters, staves, staffs, flags and streamers, shown on Drawing No. 39-1-112, List of Targets and Target Material.

6.2 Ordering data. Procurement documents should specify the following:

(a) Title, number and date of this specification
(b) Title, number and date of applicable drawings
(c) Packaging data sheet, if applicable.
(d) Level of protection required.

6.3 Suggested contractual features.

6.3.1 Staves and staffs. Color chip No. 34087 of Federal Standard No. 595 should be furnished the contractor as a guide for painting (see 3.4.1).

SPECIFICATION ANALYSIS SHEET

Form Approved
Budget Bureau No. 22-R255

INSTRUCTIONS: This sheet is to be filled out by personnel, either Government or contractor, involved in the use of the specification in procurement of products for ultimate use by the Department of Defense. This sheet is provided for obtaining information on the use of this specification which will insure that suitable products can be procured with a minimum amount of delay and at the least cost. Comments and the return of this form will be appreciated. Fold on lines on reverse side, staple in corner, and send to preparing activity. Comments and suggestions submitted on this form do not constitute or imply authorization to waive any portion of the referenced document(s) or serve to amend contractual requirements.
