INCH-POUND

MIL-C-2439E
AMENDMENT 4
29 May 1991
SUPERSEDING
AMENDMENT 3
10 April 1989

MILITARY SPECIFICATION

CONTAINER, AMMUNITION, FIBER, SPIRALLY WOUND

This Amendment forms a part of Military Specification MIL-C-2439E, dated 25 April 1986, and is approved for use by all Departments and Agencies of the Department of Defense.

PAGE 3

* Parenthetical source (for 2.1.1). Delete and substitute:

"(Unless otherwise indicated, copies of federal and military specifications, standards and handbooks are available from the Standardization Documents Order Desk, Bldg 4D, 700 Robbins Avenue, Philadelphia, PA 19111-5094.)"

PAGE 7

* 3.7.2, Metal end marking. Delete the sixth sentence ("If necessary, the word. . ."") and substitute:

"If necessary, the word "CONTAINER" may be abbreviated to "CNTNR". "CNTNR" shall be used for all new tooling. However, if tooling is already in existence with the abbreviation "CONT", it may be used in lieu of "CNTNR". Also, the embossing design shown on the drawing may be shifted circumferentially to provide additional space in the embossing circle."

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Check the source to verify that this is the current version before use.

* 3.13, Workmanship.

a. Second sentence, Delete: "surface scuffing" and substitute "scuffs penetrating the outer layer, gouges, cuts, checks".

b. After second sentence, add new sentence as follows:

"Scuffs not penetrating the outer layers, shall be permitted on a container if they are not larger than one inch and there are not more than two scuffs on the container."

PAGE 11

Table III, First article inspection. At bottom of table, Change "Inner tubes" to "inner tube material".

PAGE 15

* 4.4.2.1 Container Assembly: Delete Minor Defect 215 in its entirety.

PAGE 16

4.4.2.1 Container Assembly.

Delete Minor Defect 218 in its entirety and substitute:

"218	Staple protruding through inner wall, mislocated, missing, broken or improperly clinched (as applicable)	0.65%	3.1	Visual"

* Minor Defect 221 (workmanship). Delete AQL "0.65%" and substitute AQL "1.5%".

PAGE 20

4.4.3.7, Inner tubes: Delete in its entirety.

PAGE 22

4.5.7, Inner tube: Change "Inner tube" to "Inner tube material (First article inspection only)".

4.5.7.1, 4.5.7.2, 4.5.7.3: In all three subparagraphs, change "inner tubes" to "inner tube material".

Check the source to verify that this is the current version before use.

* 6.2, Ordering data. Delete paragraph in its entirety and substitute:

"6.2 Acquisition requirements. Acquisition documents must specify the following:

a. Title, number and date of this specification.
b. Drawing number of container.
c. Type and class of container (see 1.2).
d. Issue of DODISS to be cited in the solicitation and if required, the specific issue of individual documents referenced (see 2.1.1 and 2.2).
e. Provisions for submission of first article samples."

6.12, Resin material: Delete in its entirety and substitute:

6.12 Resin material. Boler 1318 and Boler 1633 "Fully Refined Waxes" manufactured by Boler Petroleum Company, 85 Old Eagle School Road, Wayne, PA 19087, have been found satisfactory for use in resin immersion containers."

The margins of this Amendment are marked with an asterisk to indicate where changes (additions, modifications, corrections, deletions) from the previous amendment were made. This was done as a convenience only and the Government assumes no liability whatsoever for any inaccuracies in these notations. Bidders and contractors are cautioned to evaluate the requirements of this document based on the entire content irrespective of the marginal notations and relationship to the last previous amendment.
