MILITARY SPECIFICATION

ATROPINE SULFATE OPHTHALMIC OINTMENT

This specification is approved for use by all Departments and Agencies of the Department of Defense.

1. SCOPE

1.1 Scope. This specification covers Atropine Sulfate Ophthalmic Ointment (See 6.2).

2. APPLICABLE DOCUMENTS

2.1 Issues of documents. The following documents, of the issue in effect on date of invitation for bids or request for proposals, form a part of this specification to the extent specified herein.

SPECIFICATIONS

FEDERAL

PPP-C-186	- Containers, Packaging and Packing for Drugs Chemicals and Pharmaceuticals. (See 6.3)

STANDARDS

MILITARY

MIL-STD-105	- Sampling Procedures and Tables for Inspection by Attributes.
MIL-STD-129	- Marking for Shipment and Storage.

(Copies of specifications and standards required by contractors in connection with specific procurement functions should be obtained from the procuring activity or as directed by the contracting officer.)

2.2 Other publications. The following documents form a part of this specification to the extent specified herein. Unless otherwise indicated the issue in effect on date of the invitation for bids or request for proposals shall apply.

Beneficial comments (recommendations, additions, deletions) and any pertinent data which may be of use in improving this document should be addressed to: Hq, Defense Personnel Support Center, ATTN: Directorate of Medical Materiel, DPSC-ATT, 2800 South 20th Street, Philadelphia, PA 19101, by using the self-addressed Standardization Document Improvement Proposal (DD Form 1426) appearing at the end of this document, or by letter.

The National Formulary (NF).

(Application for copies should be addressed to the Mack Publishing Company, Easton, PA 18042.)

3. REQUIREMENTS

3.1 Material. Shall be a sterile ophthalmic ointment containing Atropine Sulfate 1 percent, in a suitable base of Purified Water, Anhydrous Lanolin, Heavy Mineral Oil and White Petrolatum.

3.1.1 Consistency. The ophthalmic ointment base shall be in accordance with the USP requirement for ophthalmic ointment, in that it shall be nonirritating to the eye and shall permit diffusion of the active ingredient throughout the secretions bathing the eye.

3.1.2 Sterility. The ophthalmic ointment shall be sterile when tested in accordance with the USP sterility test method.

3.1.3 Metal particles. The ophthalmic ointment shall meet the requirements of the USP test for Metal Particles in Ophthalmic Ointments.

3.2 Assay of the finished ointment. Shall assay to contain not less than 90.0 percent and not more than 110.0 percent of the required amount of Atropine Sulfate when assayed by an appropriate, accurate and reproducible method.

3.2.1 The bidder of offeror shall submit, with its bid or proposal, the proposed method of assay for the finished ophthalmic ointment. The method shall be subject to approval and acceptance by the Government. If the method is approved and accepted by the Government, such method shall be employed in the testing of the material.

Check the source to verify that this is the current version before use.

3.3 Ingredients.

3.3.1 Atropine sulfate. The atropine sulfate used in the manufacture of the ophthalmic ointment shall comply with the tests, standards, and requirements of the USP, including any supplements or revisions thereto.

3.3.2 Other ingredients. The purified water, anhydrous lanolin, mineral oil, and white petrolatum used in the manufacture of the ophthalmic ointment shall comply with the tests, standards, and requirements of the USP, including any supplements or revisions thereto.

3.4 Expiration dating period. The expiration dating period shall be not less than 24 months.

3.4.1 Delivery. Not more than 3 months of the expiration dating period shall have elapsed at the time of delivery to the Government.

3.5 Workmanship. The material and its container shall be free from defects which detract from their appearance or may impair their serviceability.

4. QUALITY ASSURANCE PROVISIONS

4.1 Supplier responsibility for inspection. Unless otherwise specified in the contract or purchase order, the supplier is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract or order, the supplier may use his own or any other facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

4.1.1 Records of examination and tests performed by or for the contractor shall be maintained by the contractor and made available to the Government, upon the Government's request, at any time, or from time to time, during the performance of the contract and, (i) as to any expiration dated item, for the expiration dating period specified by the contractor for such item, or such longer period as may be required by regulation of any federal agency; or (ii) as to non-dated items, for not less than 3 years after delivery of the item to the Government.

4.1.2 No company supplying any ingredient(s) to the contractor will be considered an acceptable facility for the performance of any inspection requirements specified herein.

4.2 Lot. For purposes of this specification, a lot, batch, or control is that single, uniform, and homogeneous quantity of ophthalmic ointment produced from one formulation, subjected to the same compounding and manufacturing operation, and filled into final containers.

4.3 Sampling. Sampling shall be conducted in accordance with MIL-STD-105.

TABLE I. Sampling.

For visual examination	Inspection level	AQL (percent defective)	Unit of product
Major	S-2	1.0	Filled immediate container
Minor	II	2.5	Filled immediate container

4.3.1 For raw material and end item testing. Noncompliance with any of the following is cause for rejection.

TABLE II. Criteria for raw material and end item testing.

Characteristic	Requirement paragraph	Inspection level 1/	Minimum sample
Sterility	3.1.2	S-2	5
Metal Particles	3.1.3	S-2	5
Assay	3.2	S-2	5

1/ Where possible, the sample shall be used for two or more tests.

4.4 Examination. The finished ophthalmic ointment shall be examined to determine compliance with all requirements of this specification. Nonconformance will be permitted to the extent indicated in 4.3 and 4.3.1.

4.4.1 Classification of defects. Examination will be conducted in accordance with the following classification of defects:

TABLE III. Classification of defects.

Categories	Defects 1/
Major	
101	Ointment not free from foreign matter.
102	Ointment has crystal formation.
103	Ointment not homogeneous.
Minor	
201	Exterior of immediate container is not free from contents or foreign matter.
202	Label not free from defacing marks and tears.

1/ Inspection is not restricted to classified possible defects listed above.

Check the source to verify that this is the current version before use.

4.5 Tests. Tests and examinations shall be performed to determine compliance with all requirements of this document and all referenced documents.

4.6 Packaging inspection. The inspection of the intermediate package, packing and marking for shipment and storage shall be in accordance with quality assurance provisions of the applicable container specification and the marking requirements of MIL-STD-129.

4.7 Labeling inspection. Sampling shall be in accordance with MIL-STD-105 and the unit of product shall be the unit of issue. The inspection lot shall be the number of units of issue of each batch, lot, control number, etc., offered for inspection at one time. The inspection level for labeling shall be S-2 and the acceptance number shall be zero.

5. PACKAGING

5.1 Packaging requirements. The requirements for packaging shall be in accordance with all applicable requirements of PPP-C-186 (See 6.3) and as specified herein.

5.2 Packaging. Packaging shall be level A or C, as specified (See 6.1).

5.2.1 Unit of issue. One box containing twelve tubes, as specified, constitutes one unit of issue.

5.2.2 Level A.

5.2.2.1 Immediate container: The immediate container shall be a commercially available ophthalmic ointment tube considered acceptable by the Food and Drug Administration (FDA) for the product contained therein and shall be of such compatibility that neither the contents nor the container are altered in any way by each other.

5.2.2.2 Individual container. At the option of the contractor, an individual container may be furnished. If an individual package is furnished, each tube shall be packaged as specified in 5.2.4 of PPP-C-186.

5.2.2.3 Unit package. Each unit (twelve tubes) shall be packaged as specified in 5.2.5 of PPP-C-186.

5.2.2.4 Intermediate package. Twelve unit packages shall be packaged as specified in 5.2.13 of PPP-C-186.

5.2.3 Level C. Units shall be packaged in standard commercial containers of the size and kind commonly used, which will afford the degree of protection required for shipment and use of the product for its intended purpose.

Check the source to verify that this is the current version before use.

5.3 Packing. Packing shall be level A, B or C, as specified (See 6.1).

5.3.1 Level A. Twelve intermediate packages (144 units) shall be packed in an exterior container as specified in 5.4.4 of PPP-C-186.

5.3.2 Level B. Twelve intermediate packages (144 units) shall be packed in an exterior container as specified in 5.4.3.5.1 of PPP-C-186.

5.3.3 Level C. The subject commodity shall be packed in substantial commercial containers of the type, size, and kind commonly used ror the purpose, so constructed as to insure acceptance and safe delivery by common or other carriers, at the lowest rate, to point of delivery called for in the contract or purchase order.

5.4. Marking.

5.4.1 Labeling. Labeling shall be in accordance with the requirements of the Federal Food, Drug and Cosmetic Act and shall include the information required below:

5.4.1.1 Immediate container: Each immediate container label shall bear the following information:

(a) label information in accordance with commercial practice.
(b) the expiration date.

5.4.1.2 Individual container. When furnished, each box shall be marked as specified for the immediate container.

5.4.1.3 Unit package. Each unit package label shall bear the following information:

(a) label information in accordance with commercial practice.
(b) the national stock number.

NOTES: (1) The national stock number shall not be preceded by any prefix.
(2) Strip labeling may be used.
(3) Label adhesion test shall not apply.

5.4.2 Intermediate package. Each intermediate package shall be marked as specified in 5.5.3 of PPP-C-186. Type I shelf life markings shall be shown as specified in MIL-STD-129. Marking shall include the legends:

"STORE AT CONTROLLED ROOM TEMPERATURE 15° - 30°C (59° - 86°F.)"

Source: https://assist.dla.mil -- Downloaded: 2026-10-21T10:50Z
Check the source to verify that this is the current version before use.

5.4.3 Exterior container. Exterior container shall be marked as specified in 5.5.4 of PPP-C-186. Type I shelf life marking shall be shown as specified in MIL-STD-129.

"STORE AT CONTROLLED ROOM TEMPERATURE 15° - 30°C (59° - 86°F.)"

6. NOTES

6.1 Ordering data. Procurement documents should specify the following:

(a) Title, number and date of this specification.
(b) the National Stock Number.
(c) Selection of applicable levels of packaging and packing (See 5.2 and 5.3).

6.2 This specification covers the following item(s):

National Stock No.	Item Identification
6505-00-926-1440	ATROPINE SULFATE OPHTHALMIC OINTMENT, 1%, 1/8 oz (3.5 Grams), 12s

6.3 All references to PPP-C-186 refer to Interim Federal Specification PPP-C-186B which is mandatory for use until superseded by a revision.

STANDARDIZATION DOCUMENT IMPROVEMENT PROPOSAL

OMB Approval
No. 22-R255

INSTRUCTIONS: The purpose of this form is to solicit beneficial comments which will help achieve procurement of suitable products at reasonable cost and minimum delay, or will otherwise enhance use of the document. DoD contractors, government activities, or manufacturers/ vendors who are prospective suppliers of the product are invited to submit comments to the government. Fold on lines on reverse side, staple in corner, and send to preparing activity. Comments submitted on this form do not constitute or imply authorization to waive any portion of the referenced document(s) or to amend contractual requirements. Attach any pertinent data which may be of use in improving this document. If there are additional papers, attach to form and place both in an envelope addressed to preparing activity.
