MIL-N-37506
22 December 1976

MILITARY SPECIFICATION

NEOMYCIN SULFATE, GRAMICIDIN, AND POLYMYXIN B SULFATE
OPHTHALMIC SOLUTION

This specification is approved for use by all Departments and Agencies of the Department of Defense.

1. SCOPE

1.1 Scope. This specification covers Neomycin Sulfate, Gramicidin, and Polymyxin B Sulfate Ophthalmic Solution (See 6.2).

2. APPLICABLE DOCUMENTS

2.1 Issues of documents. The following documents, of the issue in effect on date of invitation for bids or request for proposals, form a part of this specification to the extent specified herein.

SPECIFICATIONS

FEDERAL

PPP-C-186 - Containers, Packaging and Packing for Drugs, Chemicals and Pharmaceuticals. (See 6.3)

Beneficial comments (recommendations, additions, deletions) and any pertinent data which may be of use in improving this document should be addressed to: Hq, Defense Personnel Support Center, ATTN: Directorate of Medical Materiel, DPSC-ATT, 2800 South 20th Street, Philadelphia, PA 19101, by using the self-addressed Standardization Document Improvement Proposal (DD Form 1426) appearing at the end of this document, or by letter.

STANDARDS

MILITARY

MIL-STD-105 - Sampling Procedures and Tables for Inspection by Attributes.
MIL-STD-129 - Marking for Shipment and Storage.

(Copies of specifications and standards required by contractors in connection with specific procurement functions should be obtained from the procuring activity or as directed by the contracting officer.)

2.2 Other publications. The following documents form a part of this specification to the extent specified herein. Unless otherwise indicated, the issue in effect on date of invitation for bids or request for proposals shall apply.

U. S. DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE, FOOD AND DRUG ADMINISTRATION (FDA)

Federal Food, Drug, and Cosmetic Act and Regulations Promulgated Thereunder.

(Application for copies should be addressed to the Food and Drug Administration, Washington, DC 20204.)

U. S. PHARMACOPEIAL CONVENTION, INC.

The United States Pharmacopeia (USP).

(Application for copies should be addressed to the Mack Publishing Company, Easton, PA 18042.)

The National Formulary (NF).

(Application for copies should be addressed to the Mack Publishing Company, Easton, PA 18042.)

3. REQUIREMENTS

3.1 Material. Shall be Neomycin Sulfate, Gramicidin, and Polymyxin B Sulfate Ophthalmic Solution and shall be in accordance with the tests, standards and requirements of the NF XIII; in addition, shall contain the following in each ml:

Neomycin sulfate, equivalent to 1.75 mg of Neomycin base	2.5 mg
Gramicidin	0.025 mg
Polymyxin B (as the sulfate)	5000 units

Source: https://assist.dla.mil -- Downloaded: 202610-21T10:52Z
Check the source to verify that this is the currentversion before use.

3.1.1 Sterility. The ophthalmic solution shall be sterile when tested in accordance with the NF Sterility Test for "Liquids".

3.2 Certification. The finished ophthalmic solution shall be in accordance with the pertinent provisions of the applicable regulations for the Certification of Antibiotics and Antibiotic-containing Drugs, as promulgated by the Food and Drug Administration, U. S. Department of Health, Education, and Welfare. Each lot shall be certified by the FDA.

3.3 Ingredients.

3.3.1 Neomycin sulfate. The neomycin sulfate used in the manufacture of the ophthalmic solution shall comply with the tests, standards, and requirements of the USP, including any supplements or revisions thereto, and shall be in accordance with the applicable regulations for the Certification of Antibiotics and Antibiotic-containing Drugs, as promulgated by the FDA.

3.3.2 Gramicidin. The gramicidin used in the manufacture of the ophthalmic solution shall comply with the tests, standards, and requirements of the NF, including any supplements or revisions thereto, and shall be in accordance with the applicable regulations for the Certification of Antibiotics and Antibiotic-Containing Drugs, as promulgated by the FDA.

3.3.3 Polymyxin B sulfate. The Polymyxin B sulfate used in the manufacture of the ophthalmic solution shall comply with the tests, standards, and requirements of the USP, including any supplements or revisions thereto, and shall be in accordance with the applicable regulations for the Certification of Antibiotics and Antibiotic-containing Drugs, as promulgated by the FDA.

3.4 Other ingredients. All other ingredients used in the manufacture of the ophthalmic solution shall be of USP or NF quality, or, if not included in either of these compendia, the ingredients shall be suitable for use in this preparation.

3.5 Expiration dating period. The expiration dating period shall be 36 months.

3.6 Delivery. Not less than 33 months of the expiration dating period shall remain at the time of delivery to the Government.

Check the source to verify that this is the current version before use.

3.7 Workmanship. The material and its containers shall be free from defects which detract from their appearance or may impair their serviceability.

4. QUALITY ASSURANCE PROVISIONS

4.1 Supplier responsibility for inspection. Unless otherwise specified in the contract or purchase order, the supplier is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract or order, the supplier may use his own or any other facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

4.1.1 Records of examinations and tests performed by or for the contractor shall be maintained by the contractor and made available to the Government, upon the Government's request, at any time, or from time to time, during the performance of the contract and, (i) as to any expiration dated item, for the expiration dating period specified by the contractor for such item, or such longer period as may be required by regulation of any federal agency; or (ii) as to non-dated items, for not less than 3 years after delivery of the item to the Government.

4.1.2 No company supplying any ingredient(s) to the contractor will be considered an acceptable facility for the performance of any inspection requirements specified herein.

4.2 Lot. For purposes of this specification, a lot, batch, or control is that single, uniform, and homogeneous quantity of ophthalmic solution produced from one formulation, subjected to the same compounding and manufacturing operation, and filled into final containers.

4.3 Sampling. Sampling shall be conducted in accordance with MIL-STD-105.

TABLE I. Sampling.

For visual examination	Inspection level	AQL (percent defective)	Unit of product
Major	S-2	1.0	Filled immediate container
Minor	II	2.5	Filled immediate container

Source: https://assist.dla.mil -- Downloaded: 2026-10-21T10:52Z
Check the source to verify that this is the current version before use.

4.4 Examination. The finished ophthalmic solution shall be examined to determine compliance with all requirements of this specification. Nonconformance shall be permitted to the extent indicated in 4.3.

4.4.1 Classification of defects. Examination will be conducted in accordance with the following classification of defects:

TABLE III. Classification of defects.

Categories	Defects 1/
Major	
101	Solution not essentially free from foreign matter.
102	Solution has crystal formation.
103	Solution not homogeneous.
Minor	
201	Exterior of immediate container is not free from contents or foreign matter.
202	Label not free from defacing marks and tears.

1/ Inspection is not restricted to the classified possible defects listed above.

4.5 Tests. Tests shall be performed to determine compliance with all requirements and all referenced documents.

4.6 Packaging inspection. The inspection of the intermediate package, packing and marking for shipment and storage shall be in accordance with quality assurance provisions of the applicable container specification and the marking requirements of MIL-STD-129.

4.7 Labeling inspection. Sampling shall be in accordance with MIL-STD-105 and the unit of product shall be the unit of issue. The inspection lot shall be the number of units of issue of each batch, lot, control number, etc., offered for inspection at one time. The inspection level for labeling shall be S-2 and the acceptance number shall be zero.

5. PACKAGING

5.1 Packaging requirements. The requirements for packaging shall be in accordance with all applicable requirements of PPP-C-186 (See 6.3) and as specified herein.

5.2 Packaging. Packaging shall be level A or C, as specified (See 6.1).

5.2.1 Unit of issue. One bottle containing 10 ml, as specified, constitutes one unit of issue.

5.2.2 Level A.

5.2.2.1 Immediate container. The immediate container shall be a commercially available immediate container considered acceptable by the Food and Drug Administration (FDA) for the product contained therein and shall be of such compatibility that neither the contents nor the container are altered in any way by each other.

5.2.2.2 Unit package. At the option of the contractor, a unit package may be furnished. If a unit package is furnished, each unit shall be packaged as specified in 5.2.5 of PPP-C-186.

5.2.2.3 Intermediate package. Twelve units shall be packaged as specified in paragraph 5.2.7.1 of PPP-C-186.

5.2.3 Level C. Units shall be packed in standard commercial containers of the size and kind commonly used, which will afford the degree of protection required for shipment and use of the product for its intended purpose.

5.3 Packing. Packaging shall be level A, B or C, as specified (See 6.1).

5.3.1 Level A. Twelve intermediate packages (144 units) shall be packed in an exterior container as specified in 5.4.4 of PPP-C-186.

5.3.2 Level B. Twelve intermediate packages (144 units) shall be packed in an exterior container as specified in 5.4.3.1.1 of PPP-C-186 except that liners and top and bottom pads shall not be required when plastic bottles are used.

Check the source to verify that this is the current version before use.

5.3.3 Level C. The subject commodity shall be packed in substantial commercial containers, of the type, size, and kind commonly used for the purpose, constructed so as to insure acceptance and safe delivery by common or other carriers, at the lowest rate, to point of delivery called for in the contract or order.

5.4 Marking.

5.4.1 Labeling. Labeling shall be in accordance with the requirements of the Federal Food, Drug and Cosmetic Act and shall include the information required below:

5.4.1.1 Immediate container. Each immediate container label shall bear the following information:

(a) label information in accordance with commercial practice.
(b) the expiration date.

5.4.1.2 Unit package. Each unit package label shall bear the following information:

(a) label information in accordance with commercial practice.
(b) the National Stock Number.
(c) extended potency lines.

NOTES: (1) The National Stock Number shall not be preceded by any prefix.
(2) Strip labeling may be used.
(3) Label adhesion test shall not apply.
(4) If a unit package is not supplied, the National Stock Number and extended potency lines shall appear on the immediate container label.

5.4.2 Intermediate package. Each intermediate package shall be marked as specified in 5.5.3 of PPP-C-186. Type II shelf life markings as specified in MIL-STD-129 shall be shown. Marking shall also include the legend: "STORE AT CONTROLLED ROOM TEMPERATURE 15° - 30°C(59° - 86°F)".

5.4.3 Exterior container. Exterior container shall be marked as specified in 5.5.4 of PPP-C-186. Type II shelf life marking as specified in MIL-STD-129 shall be shown. Marking shall include the legend: "STORE AT CONTROLLED ROOM TEMPERATURE 15° - 30°C (59° - 86°F)".

6. NOTES

6.1 Ordering data. Procurement documents should specify the following:

(a) Title, number, and date of this specification.
(b) National Stock Number.
(c) Selection of applicable levels of packaging and packing (See 5.2 and 5.3).

6.2 This specification covers the following item(s):

National Stock No.	Item Identification
6505-00-890-1299	NEOMYCIN SULFATE, GRAMICIDIN, AND POLYMYXIN B SULFATE OPHTHALMIC SOLUTION, 10 ml

6.3 All references to PPP-C-186 refer to Interim Federal Specification PPP-C-00186B which is mandatory for use until superseded by a revision.

STANDARDIZATION DOCUMENT IMPROVEMENT PROPOSAL

OMB Approval
No. 22-R255

INSTRUCTIONS: The purpose of this form is to solicit beneficial comments which will help achieve procurement of suitable products at reasonable cost and minimum delay, or will otherwise enhance use of the document. DoD contractors, government activities, or manufacturers/ vendors who are prospective suppliers of the product are invited to submit comments to the government. Fold on lines on reverse side, staple in corner, and send to preparing activity. Comments submitted on this form do not constitute or imply authorization to waive any portion of the referenced document(s) or to amend contractual requirements. Attach any pertinent data which may be of use in improving this document. If there are additional papers, attach to form and place both in an envelope addressed to preparing activity.
