COMMERCIAL ITEM DESCRIPTION

HOE, GARDEN

The General Services Administration has authorized the use of this commercial item description (CID) for use in preference to Federal Specification GGG-H-496, type I.

1. SCOPE

1.1 Scope. This commercial item description covers hoes suitable for garden usage.

2. CLASSIFICATION

2.1 Classification. The hoes shall be of the following sizes, as specified:

Size 1 - 6-inch blade width (15.2 cm)
Size 2 - 8-inch blade width (20.3 cm)

3. SALIENT CHARACTERISTICS

3.1 Handles. The hoe shall have a wood handle. The wood shall be sound, thoroughly seasoned straight-grained white ash, hickory, Or equivalent hardwood. The handle shall include a protective finish such as lacquer, varnish, or polyrethane. The handle may have a cushion-type handgrip at the manufacturer's option. The handle shall measure 51 to 60 inches (1.3 to 1.5 m) in length (including the portion in the socket) . The handle shall have a minimum diameter of 1-3/16 inches (3.0 cm). The end of the handle attached to the socket or ferrule shall be tapered and the other end rounded. There shall be a minimum of 3 inches (7.6 cm) of the handle within the socket.

3.2 Blades, shanks, and sockets. Blades and shanks shall be made from forged steel. The sockets shall be made from a steel suitable for welding to the shank. The shank shall have a minimum diameter of 7/16 inch (1.1 cm).

Beneficial comments, recommendations, additions, deletions, clarifications, etc. and any data which may improve this document should be sent to: General Services Administration, Engineering Group (7FXEE), 819 Taylor St., Fort Worth, TX 76102

Check the source to verify that this is the current version before use.

3.3 Design and construction. The hoe shall consist of essentially a blade, gooseneck shank, crosspin, handle, and either a tapered socket or-steel ferrule at the option of the manufacturer. The size 2 hoe may have a straight shank at the manufacturer's option. Tapered sockets shall be welded to the gooseneck shank. Hoes using a steel ferrule shall have the gooseneck shank forced into the handle at least 3 inches (7.6 cm). Blades shall be flat or slightly concaved, and shall have a pitch of 70 to 85 degrees with the handle. The one-third of the a blade near the hoeing edge shall be polished and the remainder shall have a smooth finish as produced by sandblasting, tumbling, or similar operation.

3.3.1 Size 1. The size 1 hoe blade shall have a width of 5-3/4 to 6-1/2 inches (14.6 to 16.5 cm) and a depth of 4 to 4-3/4 inches (10.2 to 12.1 cm). The size 1 blade shall be the commercial garden hoe design as shown in figure 1.

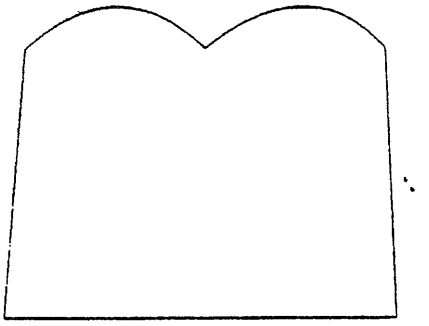

Figure 1 - Garden Hoe

3.3.2 Size 2. The size 2 hoe blade shall have a width of 7-3/4 to 8-1/4 inches (19.7 to 21.0 cm) and a depth of 4-1/2 to 6 inches (11.4 to 15.2 cm). The size 2 blade shall be either the commercial garden or planter hoe design as shown in figure 2.

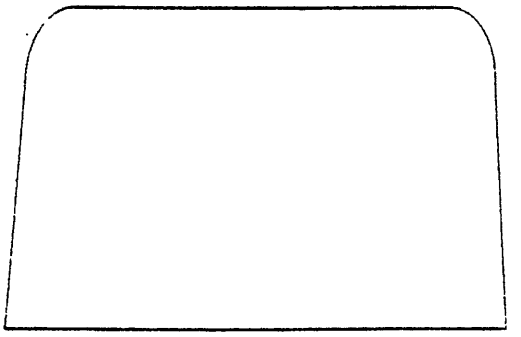

Figure 2 - Planter Hoe

3.4 Finish. Wood handgrips shall be smooth and shall have an applied coating of varnish, lacquer, or polyurethane.

3.5 Identification marking. The hoes shall be marked with the manufacturer's name or trademark. The use of an adhesive-backed label shall be acceptable.

Check the source to verify that this is the current version before use.

3.6 Workmanship. The hoes shall be free from ragged edges, cracks, holes, pits, and other defects which would affect the appearance and serviceability of the item. Small pits, which are a byproduct of the forging process, shall be acceptable provided they do-not seriously detract from the appearance of the item.

3.7 Metric products. Products manufactured to metric dimensions will be considered on an equal basis with those manufactured using inch-pound units, providing they fall within tolerances specified and all other requirements of this document are met. If a product is manufactured to metric dimensions and those dimensions exceed the tolerances specified in the inch-pound units, a request should be made to the contracting officer to determine if the product is acceptable.

3.8 Standard commercial product. The hoe shall, as a minimum, be in accordance with the requirements of this cid and shall be the manufacturer's standard commercial product. A standard commercial product is a product which has been sold or is currently offered for sale on the commercial market through advertisements, manufacturer's catalogs, or brochures, and represents the latest production model.

4. REGULATORY REQUIREMENTS

4.1 Recovered materials. The offeror/contractor is encouraged to use recovered materials to the maximum extent practicable, in accordance with paragraph 23.403 of the Federal Acquisition Regulation (FAR).

5. QUALITY ASSURANCE PROVISIONS

5.1 Contractor certification. The contractor shall certify and maintain substantiating evidence that the product offered meets the salient characteristics of this Commercial Item Description, and that the product conforms to the producer's own drawings, specifications, standards, and quality assurance practices. The government reserves the right to require proof of such conformance prior to the first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

6. PACKAGING

6.1 Presentation, packing, and marking. The preservation, packing, and marking shall be as specified in the contract or order.

7. NOTES .

7.1 Ordering data. Purchasers should select the preferred options permitted herein and include the following information in procurement documents (if applicable).
